Our Guiding Philosophy

The Trust Compass is the foundation of our operating philosophy, guiding every decision we make and shaping how we create long-term value. It is anchored on three unwavering priorities — putting customers first, driving profitable growth, and upholding the highest standards of Risk, governance and integrity. Together, these principles enable us to drive consistent performance and ensure that progress is grounded in trust, transparency, and long-term value creation.

CUSTOMER-FIRST

Our customers remain central to everything we do. From product design to service delivery, we focus on creating simple, transparent and seamless experiences that help investors achieve their financial goals with confidence. Through a digital-first approach, disciplined investment strategies and prudent risk management, we continue to strengthen customer engagement while delivering long-term value.

Recognizing the diverse needs of our wealth creation ecosystem, our comprehensive product suite caters across the entire spectrum, from accessible retail offerings to bespoke solutions for High-Net-Worth (HNI) and Ultra-High-Net-Worth (UHNI) individuals. By expanding our capabilities in the Alternates space, we ensure that every client segment has access to sophisticated, institutional-grade strategies tailored to their unique investment horizons.

RISK MANAGEMENT

Our approach is guided by transparency, accountability and sound governance practices across the organisation. Supported by robust research, disciplined fund management processes and continuous innovation, we remain focused on delivering relevant investment solutions and consistent risk-adjusted performance to investors.

PROFITABLE GROWTH

Supported by a strong equity-oriented asset mix, steady investor flows led by consistent fund performance and wide distributor franchise, we have continued to deliver consistent business performance across market conditions. Today, we manage QAAUM of ₹11.78 tn across a wide range of simple and relevant investment solutions designed to meet the evolving needs of investors. Over the past three years, Operating profit before tax, which reflects the core profitability of the underlying business, has grown at a CAGR of 30.93%. Operating margins, a key metric for asset management companies, remained stable at 37.6 bps of Annual AAUM, while return on equity stood at 85.8%, highlighting efficient capital utilisation and disciplined execution.

Looking Ahead

With increasing financialization and growing retail participation, India's investment landscape continues to present significant long-term opportunities. Our listing on the Indian equity markets marks an important milestone, reinforcing our commitment to transparency, governance and sustainable value creation for all stakeholders.

Legacy of Trust

The AMC is promoted by ICICI Bank limited, a trusted name in financial services in India and Prudential Corporation Holdings Limited, a leading pan-Asia & Africa focused group providing health, protection and savings solutions. Throughout these years of the joint venture, the Company has forged a position of pre-eminence in the Indian Mutual Fund industry.

ICICI Bank is directly or through its subsidiaries, present in commercial banking, retail banking, project and corporate finance, working capital finance, life insurance, general insurance, asset management, investment banking, broking and treasury products and services. Listed subsidiaries of ICICI Bank include ICICI Prudential Life Insurance Company Limited (established as a joint venture between ICICI Bank and Prudential Corporation Holdings Limited) and ICICI Lombard General Insurance Company Limited.

Prudential, which is a part of the Prudential group founded in 1848, is a leading life and health insurer. Prudential provides savings and protection in many markets challenged by low insurance penetration and a pension funding gap.

Message from the Chairman

At ICICI Prudential Asset Management Company, our philosophy is anchored in the Triangle of Trust, an operating framework of putting customers first, maintaining a strong focus on risk management and pursuing profitable growth. This framework guides our decisions, ensuring that growth remains aligned with long-term investor outcomes.

Sandeep Batra
Chairman

Dear Shareholders,

It is with pride that I present to you the Annual Report for FY2026.

Enduring institutions are built not in times of certainty, but in how they respond to uncertainty.

The past year unfolded against a complex global backdrop marked by moderating growth across major developed economies, evolving monetary policy expectations, elevated geopolitical tensions and intermittent market volatility. Commodity prices, particularly crude oil, remained volatile, while global financial markets were sensitive to inflation and interest rate expectations.

Amidst these conditions, India's economy demonstrated notable resilience. Growth remained among the strongest across major economies, supported by healthy domestic consumption, continued momentum in services, steady manufacturing activity and ongoing infrastructure creation.

Macroeconomic stability was underpinned by prudent fiscal management, with the fiscal deficit remaining on a credible consolidation path, while external balances and the current account position were managed with discipline despite global uncertainties and energy price pressures. Inflation remained within the Reserve Bank of India's target band for much of the year, reflecting the strength of policy coordination and domestic buffers.

These strengths reinforce confidence in India's long-term structural growth drivers, supported by rising formalisation, increasing household financial savings, deepening participation in capital markets and continued public and private investment. Against this backdrop, the role of governance, disciplined execution and clarity of purpose becomes even more critical.

At ICICI Prudential Asset Management Company, our philosophy is anchored in the Triangle of Trust, an operating framework of putting customers first, maintaining a strong focus on risk management and pursuing profitable growth. This framework guides our decisions, ensuring that growth remains aligned with long-term investor outcomes.

During the year, the Company marked an important milestone with its public listing in December 2025. This transition reflects the trust built over time and brings with it an added responsibility towards a broader set of stakeholders. It reinforces our commitment to transparency, governance, and accountability.

Operationally, the Company recorded steady progress. Mutual fund QAAUM increased to ₹11,047.87 billion, supported by broad-based growth across actively managed, equity-oriented, and hybrid strategies. Our alternatives platform also continued to scale in line with evolving investor needs.

Investor participation deepened further, with the number of unique customers rising to 17 million and systematic investment flows remaining robust. These trends indicate a gradual but important shift towards disciplined, long-term investing.

Our emphasis, therefore, is on consistency through strong processes, prudent risk management, and governance standards that remain steady across cycles.

Beyond scale, these developments reflect a strengthening of investor behavior; an outcome that aligns closely with our long-term orientation.

We remain mindful that trust is built over time, but tested in periods of volatility. Our emphasis, therefore, is on consistency through strong processes, prudent risk management, and governance standards that remain steady across cycles. In line with the Triangle of Trust, progress must be responsible, leadership must be accountable, and trust must be continually earned.

Looking ahead, while uncertainties may persist, India remains well positioned for long-term growth. Our endeavour will be to remain steady by way of strengthening capabilities, broadening access, and delivering solutions that are relevant to investors across market cycles.

I would like to thank our investors, partners, and employees for their continued trust. We remain committed to upholding the trust placed in us with discipline and responsibility.

CEO's MESSAGE TO SHAREHOLDERS

Being customer first remains our true north. In an industry built on fiduciary responsibility, trust is earned through consistent actions and long term alignment with favourable investment outcomes. As of March 31, 2026, we serve a growing community of over 17 million, reflecting the growing trust placed in us by households across the country.

XXXX XXXX
Xxxxxx Xxxxxx

Dear Shareholders,

As we reflect on the year gone by, one thing becomes increasingly evident. While markets evolve, cycles shift, and opportunities expand, at the heart of any endearing investment institution lies a single, unchanging principle which is trust.

At ICICI Prudential AMC, such principles have guided us from the very beginning. Over time, we have come to articulate this philosophy through what we call the 'Triangle of Trust', a framework that shapes our thinking, anchors our decisions, and defines how we build for the long term. This framework rests on three pillars, i.e. being customer-first, maintaining a strong focus on risk management, and pursuing profitable growth with discipline. These pillars are deeply interconnected and together form the basis of our institution.

CUSTOMER-FIRST

Being customer first remains our true north. In an industry built on fiduciary responsibility, trust is earned through consistent actions and long term alignment with favourable investment outcomes. As of March 31, 2026, we serve a growing community of over 17 million, reflecting the growing trust placed in us by households across the country. Over the past year, we have welcomed 2.4 million new investors, with a meaningful proportion being first time participants in mutual funds. This reflects the ongoing structural shift from savings to investments and the deepening of financial inclusion across the country.

Systematic investing continues to be a cornerstone of investor behaviour. Monthly systematic transactions stood at approximately ₹51 billion, registering a 30.6 percent year on year growth. This reflects improving investor discipline and a gradual shift towards long term wealth creation.

We continue to offer a well-diversified suite of investment solutions across equity, debt, hybrid and alternative strategies, catering to varied investor needs and lifecycle requirements.

RISK MANAGEMENT

Markets remain inherently uncertain, and the ability to navigate volatility becomes critical in sustaining long-term positive outcomes. At ICICI Prudential AMC, risk management is embedded into every stage of the business process. Our approach focuses on balancing participation in opportunities with protection against downside risks, supported by robust internal frameworks and controls.

We view risk not as a constraint but as an integral part of the investment process. Our emphasis remains on asset allocation discipline, managing drawdowns and ensuring that portfolios are positioned to navigate different market environments. This disciplined approach has enabled us to maintain consistency across cycles while safeguarding investor capital.

PROFITABLE GROWTH WITH DISCIPLINE

Rising investor participation, increasing financialization of savings, and wider distribution have led to strong growth in assets under management, allowing profit pools to expand even in a lower margin environment.

Being customer first remains our true north. In an industry built on fiduciary responsibility, trust is earned through consistent actions and long term alignment with favourable investment outcomes. As of March 31, 2026, we serve a growing community of over 17 million, reflecting the growing trust placed in us by households across the country.

Scale, supported by operating leverage, can meaningfully offset margin compression. As assets grow, the ability to deliver sustainable profitability improves, while also making investing more accessible and cost-effective for investors.

At the same time, maintaining a disciplined cost structure remains critical. While buoyant markets support flows across the industry, in more moderate environments, efficiency becomes a key differentiator. A lower cost base enhances resilience, strengthens competitiveness, and enables continued investment in capabilities.

BUILDING WITH DISCIPLINE AND SCALE

Against the backdrop of strong industry growth, ICICI Prudential AMC has continued to strengthen its position. Our total mutual fund quarterly average AUM stood at approximately ₹11.05 trillion, reflecting a 25.6% year-on-year growth, ahead of the broader industry.

We continue to maintain a strong market presence with an overall share of approximately 13.5%, alongside leadership positions across key categories.

Equity-oriented assets grew by 27.2% year-on-year to approximately ₹6.2 trillion, while hybrid strategies expanded by 31.8% year-on-year, reflecting investor preference for balanced investment approaches in a volatile environment.

Our alternatives business has also scaled meaningfully, with assets under management of approximately ₹730 billion, reflecting increasing investor interest in differentiated strategies. More specifically, the PMS and AIF AUM combined over the past five years has grown more than fourfold from approximately ₹98 billion in March 2022 to over ₹420 billion in March 2026, while the client base expanded significantly from around 4,900 clients to over 36000 clients during the same period. This growth reflects a consistent focus on building a diversified and resilient business across asset classes.

DIGITAL CAPABILITIES & ARTIFICIAL INTELLIGENCE

Our digital platforms today support millions of transactions annually, allowing us to scale efficiently while maintaining consistency in experience. Beyond transactions, digital tools are increasingly being leveraged for investor engagement, portfolio tracking and advisory support, helping investors make more informed decisions.

Digital capabilities also enable us to extend our reach beyond traditional geographies, improving accessibility and contributing to the broader expansion of the mutual fund ecosystem.

At ICICI Prudential Asset Management, we view Artificial Intelligence as a fundamental driver of long-term value. Our AI strategy is built on three pillars: Investment AI, which enhances our research capabilities with deep data insights; Customer AI, which allows us to deliver more personalized and meaningful engagement; and Operational AI, which streamlines our internal processes to improve enterprise productivity. By embedding these technologies into our core operations, we are ensuring the organization remains agile, data-driven, and focused on delivering superior outcomes for our investors.

DISTRIBUTION AND REACH

Our network spans a wide base of partners across geographies, enabling us to serve a diverse and expanding investor population.

A growing proportion of investor additions is now coming from beyond the top cities, reflecting the deepening of financial inclusion and increasing awareness across emerging markets. This geographic diversification is an important driver of long term industry growth.

The mix of distribution channels continues to evolve. Direct investments account for approximately 28.9 percent of our equity assets, while mutual fund distributors contribute 36.7 percent, reflecting a balanced and resilient distribution model. This diversification enables us to engage with investors across segments while maintaining flexibility in how we scale.

The combination of strong distribution capabilities and digital enablement allows us to expand participation while ensuring consistency in investor experience.

PEOPLE AND CULTURE

At the heart of this institution are our people. With a team of over 3,585 professionals, we have built strong capabilities across investment management, risk, technology and distribution. Our focus has been on building both scale and depth, strengthening research capabilities, enhancing risk frameworks and developing leadership across functions.

Equally important is the culture we have nurtured, one that values accountability, encourages long term thinking and places the investor at the center of every decision. It is this combination of people, process, and philosophy that enables us to translate intent into outcomes.

LOOKING AHEAD

The outlook for the Indian mutual fund industry remains encouraging. Structural drivers such as rising incomes, increasing financial awareness, and digital adoption continue to support long-term growth. At the same time, markets will continue to experience periods of volatility driven by global and domestic factors. In such an environment, discipline becomes critical.

At ICICI Prudential AMC, we remain guided by the principles of the Triangle of Trust. We will continue to focus on being customer-first, maintaining a strong risk management framework, and pursuing growth with discipline. We believe that institutions that can combine trust with innovation, scale with responsibility, and discipline with growth will be best positioned to create long-term value.

We thank our investors, partners, stakeholders and employees for their continued trust and support. The journey ahead is filled with opportunity, and we move forward with confidence and responsibility.

The mix of distribution channels continues to evolve. Direct investments account for approximately 28.9 percent of our equity assets, while mutual fund distributors contribute 36.7 percent, reflecting a balanced and resilient distribution model. This diversification enables us to engage with investors across segments while maintaining flexibility in how we scale.

He joined the SBI as Probationary Officer in 1983 and during his 34 years of service with SBI, he has held various key assignments including Dy. Managing Director (HR) & Corporate Development Officer, Dy. Managing Director & Chief Operating Officer, Chief General Manager, Kolkata Circle, General Manager, Local Head Office Mumbai, DGM (Industrial relations) and faculty in SBI's Apex Training Institute - State Bank Academy, Gurugram. He holds degree in science and a law from Delhi University.

Being a Trusted Partner in Enabling Wealth Creation

OUR INVESTMENT FRAMEWORK AND PRINCIPLES

Our industry is driven by our comprehensive investment philosophy that is designed to deliver risk-adjusted returns across market cycles. With three decades of market knowledge, research capabilities, and a wide branch network, we continue to help our customers create and growth their wealth and achieve their long-term financial goals.

At ICICI Prudential AMC, our investment approach has always been to manage risk first and aim for long term returns for our customers, whilst ensuring that the brand continues to remain trusted. We have implemented an internal control structure with emphasis on risk management, internal audit systems and regulatory compliance.

AN INSIGHTFUL ADVISORY AND RESEARCH

Our investment philosophy endeavours to deliver investment performance against benchmarks. Our investment strategy is to have a balanced and well-diversified portfolio within each of our funds, which are subject to internal norms governing asset allocation, sectoral allocation and security selection. We rely on our professional and disciplined investment approach for the launch as well as efficient management of our funds.

The professional team and senior management aim to develop, execute and grow the business by relying on the industry knowledge and leadership of the management team with their extensive experience. This provides us with a competitive advantage and enables us to implement our strategies to achieve long-term objective of delivering sustainable growth.

OUR INVESTMENT PROCESS

The AMC's investment process is supported by an established research framework that combines both quantitative and qualitative analysis. Our dedicated research team focuses on understanding of business models, industry dynamics, and key performance drivers.

Quantitative analysis includes assessment of industry growth prospects, the company's financial performance, and competitive positioning.

Qualitative analysis emphasises management quality, corporate governance standards, and long-term sustainability of the business.

Together, these inputs help in portfolio construction and security selection, helping us make high-conviction investment decisions.

OUR INVESTMENT TEAM

Our long-standing market presence is supported by an experienced and stable management and investment team with deep expertise across the asset management industry. Over the years, we have built a strong culture of nurturing homegrown talent, reflected in the long tenures and institutional knowledge across leadership, investment and research functions.

Our Key Managerial Personnel and senior management team have been with the Company for an average of over 11 years and bring an average work experience of 25 years. Several members of the leadership team have spent more than a decade within the ICICI Group, reflecting continuity, stability and alignment with the Group's values and governance standards.

Our investment platform is backed by dedicated mutual fund, alternates and research teams with significant domain expertise across asset classes and investment strategies. Supported by experienced fund managers, analysts and dealers, these teams combine institutional knowledge, research-led insights and disciplined investment processes to drive long-term value creation for investors.

We continue to invest in talent development through curated learning programmes and leadership capability initiatives aimed at strengthening our internal talent pipeline and reinforcing a culture of long-term growth and retention.

KEY STRATEGIES FOR AUM GROWTH

Our market position, financial performance and back-end system capability sets the AMC up for further growth, enhancing efficiency and leading to value creation for stakeholders. We have adopted a customer-centric strategy to continue growing our AUM, expanding the market share, and increasing our customer base.

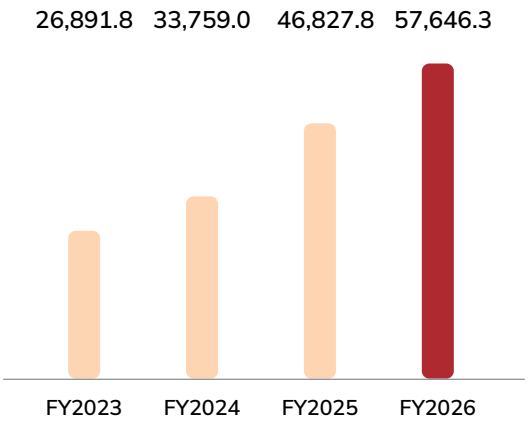

CORE ASPECTS OF OUR STRATEGY

- To maintain focus on investment performance with a risk calibrated approach
- To expand the customer base through distinct initiatives, increase penetration in existing and new markets, and strengthen relationships with the distributors
- To grow the Alternates business
- To diversify the product portfolio to suit dynamic customer needs
- To leverage technology and scale digital capabilities to drive customer acquisition and enhance customer experience

Our Digital Ecosystem

Providing multiple Digital touchpoints that enable a secure and seamless access to investment opportunities remains our key priority. With the industry continuing to grow exponentially, driven by a digital-native demographic, we are committed to offering a robust Digital ecosystem that helps us lead the next wave of growth

FEATURE MATURITY

Over the past year, we have made significant strides in our transitional journey from foundational stability to feature-rich maturity. On the Investor platforms, we have added to our capabilities across all our core journeys, including the launch of new login features, a complete overhaul of the on-boarding and folio creation experience, new portfolio features – including a 360-degree view of the entire financial portfolio (including Mutual Funds, Stocks and Bank Accounts) for select users using the Account Aggregator framework, Cart feature for transactions and many more

On the MFD platforms, we have strengthened significantly through valuable additions like an enhanced Brokerage Dashboard, Group Transaction facilities, Customer Insights and Business Opportunities sections to help create contextual interaction opportunities with Clients and assist in business expansion

We have launched a new SIF portal and a fully functional AIF portal within the existing PMS portal, allowing our users to enjoy a unified Alternates experience that serves as a one stop shop for all their transaction and servicing needs. We have also digitized our on-boarding journeys for Alternates with a continuously increasing Digital adoption trend

EXPERIENCE MATURITY

Besides adding new features, we continue to aggressively optimize journeys covering the entire lifecycle of both Investors and Partners, and across both our Web and App ecosystems. Through a relentless focus on simplicity, intuitive designs and seamless experiences, we have been able to progressively reduce friction and broaden our conversion funnels with a view to strengthening our overall Digital business. Our strategic focus areas for optimization remain On-boarding, KYC completion, first investments, overall transaction experiences and payments.

We have, additionally, entrenched our platforms with data driven personalization capabilities, surfacing dynamic content such as fund recommendations, presenting personalized and contextual information to our users. We are also focused on reducing the page / screen load times and application response times with a view to enabling faster experiences for our Users, directly correlating with a boost in our conversions.

Our UX Design team actively leverages advanced AI capabilities to create next-gen user interfaces with creative finesse, while also ensuring adherence to the latest design standards. Besides, AI plays a pivotal role in generating multiple prototypes rapidly, helping accelerate user research while also plugging back user feedback and churning out iterative designs quickly

Our Product team utilizes AI in their daily workflows, ranging from drafting requirements, brainstorming concepts, synthesizing user research and even in the QA process, helping accelerate delivery timelines. This additionally helps the teams focus on high value strategic thinking and problem solving, while cutting out routine administrative tasks ultimately resulting in a much improved Product Quality

FUELLING GROWTH THROUGH STRATEGIC MARKETING. STRENGTHENING FINANCIAL LITERACY.

Investor education and financial literacy continue to be central to our marketing and communication efforts. Our initiatives are designed to simplify investing, build awareness across mutual funds categories, and help investors make informed long-term financial decisions. Through a mix of educational content, digital engagement and on-ground investor awareness initiatives, we strive to make investing more accessible and relevant across investor segments and life stages.

DRIVING AWARENESS THROUGH MEANINGFUL CONTENT

Our communication approach combines product awareness with investor education. Alongside building awareness for categories such as Multi Asset Allocation Funds (MAAF), ETFs, Value Funds and other long-term investment offerings, we continue to create educational content that helps investors better understand financial planning, diversification, asset allocation and long-term investing.

Over the years, we have built a strong digital-first ecosystem spanning our website, mobile application and social media platforms. We engage with both first-time and evolved investors using simplified and engaging content formats such as short-form videos, infographics and podcasts. Our content series such as Mutual Funds ka ABC, Paiso Ki Pathshaala and other bite-sized educational formats are aimed at simplifying mutual funds for everyday investors and covering concepts such as investment styles, mutual fund categories, SIPs, asset allocation and long-term wealth creation in a simple and relatable manner. These initiatives use storytelling, micro-drama formats and easy-to-understand language to improve investor awareness and confidence. Our presence across platforms including YouTube, Instagram, Facebook and LinkedIn enables us to reach investors across geographies, age groups and levels of financial awareness. To improve accessibility and relevance across diverse investor segments, we also create content across multiple languages, formats and platforms. We also continue to create content around investor behaviour and the importance of staying invested through market cycles. To improve

STRENGTHENING INVESTOR OUTREACH

We engage with investors and distributors through an integrated nationwide media approach spanning television, print, digital, social media and on-ground initiatives. Our outreach also includes leading regional newspapers and Television channels, helping us connect with investors across the length and breadth of the country. We also provide regular product updates, presentations, factsheets, videos and educational material to support investor communication and distributor engagement. This integrated outreach strategy enables us to connect with investors across geographies, age groups and varying levels of financial awareness in a more meaningful and relatable manner.

In addition, we conduct investor awareness programmes across India aimed at improving participation in mutual funds and encouraging disciplined financial planning.

As a participant in the Indian mutual fund industry, we remain committed to upholding the standards and investor awareness objectives advocated by Association of Mutual Funds in India. In accordance with applicable regulations, we continue to invest in investor education and awareness initiatives aimed at building informed participation in financial markets over the long term.

BUILDING STRENGTH THROUGH OUR HUMAN CAPITAL

At ICICI Prudential Asset Management Company, our people, values and culture form the foundation of our long-term success. As a knowledge-driven business, we believe that building strong teams, developing future-ready capabilities and creating opportunities for growth are essential to delivering consistent value to investors and stakeholders.

Our focus remains on attracting, developing and retaining talent across the Company through structured learning initiatives, leadership development programmes and a performance-oriented culture. Backed by experienced management and investment teams, we continue to strengthen our talent pipeline while building a workplace that encourages accountability, collaboration and continuous learning.

OUR CULTURE

Our culture is anchored in deep commitment to customer centricity, for external customers as well as internal customers. As an organisation operating in a highly compliance-driven environment, we consciously balance entrepreneurial agility with strong governance, adhering to compliance culture, enabling innovation and speed while upholding the highest standards of integrity and compliance.

Our way of being is guided strongly by the organisational values. We foster a workplace that is built on fairness, respect and inclusion, where diverse perspectives are valued, and individuals are empowered to contribute with confidence. At the heart of it, we are constantly striving for excellence in what we do - a mindset of continuously raising the bar by delivering high-quality products and services for our customers and stakeholders.

BUILDING FUTURE-READY TALENT

The AMC believes in investing in its employees across all roles and levels within the organisation, committed to building a future-ready talent ecosystem by investing consistently in both young recruits from campus and internal talent. Being proactive in understanding the emerging requirements of the workforce, the organisation invests in campus programs by hiring fresh talent through reputed institutes, grooming and developing to create a strong young talent pipeline. Various developmental interventions and focused engagement with these young recruits through early career years helps the organisation to create a pipeline for roles in for junior and mid-level roles positions.

The overall talent management process helps in identifying employees with high potential to meet the future talent needs of the organisation. The talent development process involves engaging with the talent and developing them by providing role-based, structured learning and developmental experiences and exposure that prepare employees for current and evolving future roles. Internal role movements encourage broader perspectives and deeper business understanding. These initiatives help in taking care of succession for the organisation and promote career growth, leading to the retention of key talent.

CAPABILITY BUILDING AT THE ORGANISATION

Capability building continues to be a strategic priority of the organisation, with a focus on creating role-based journeys aligned with skills and competencies required across functions and different tenure stages of employees. In the rapidly changing environment of the Mutual Fund industry, strengthening technical, functional and behavioural competencies is imperative, and the learning structure takes care of these complexities.

A robust technical capability building structure, with emphasis on building deeper domain knowledge coupled with certifications and assessments, helps in continuous upskilling of employees on technical and product concepts to stay abreast of industry, regulatory and market developments. Flagship programs with premium institutes, co-curated with the business context in mind, help in advancing the technical expertise of sales and product employees.

Alongside technical capability, significant focus is placed on building behavioural and people leadership capabilities that enable employees to strive for high performance and growth as well as enable people managers to foster a high-performance driven culture while effectively engaging and nurturing talent. Many behavioural programs focus on developing the overall employee's professional and personal strengths in current as well as future roles.

Leadership development initiatives are designed to strengthen strategic thinking, enterprise leadership and future readiness, thereby enhancing the organisation's competitive advantage. Tie-ups with leading learning partner organisations and management institutes help in deepening the leadership expertise of key leaders within the organisation.

These learning efforts are further supported through digital learning initiatives to foster a continuous learning culture. Through digital learning platforms, employees are encouraged to take charge of their own learning beyond their immediate roles. Employees who take up self-learning are encouraged and recognised through organisation-wide visibility of their achievements.

NURTURING AN ENABLING WORK ENVIRONMENT

We continue to strengthen an enabling environment through people-centric practices aimed at fostering trust, well-being, collaboration and a strong sense of belonging. Employee-friendly policies remain a key focus, creating enhanced employee experience across the organisation. Recognising the importance of well-being, the organisation initiates several health and well-being awareness programs. To strengthen employee connect and continuously understand employee sentiment, we have introduced an AI-enabled listening and feedback platform that helps understand employee pulse in real time, enabling us to sustain positive practices and proactively address areas needing improvement. Recognition programs continue to celebrate performance and value-led behaviours and meaningful contributions. Various engagement initiatives taken up throughout the year across regions encourage greater collaboration amongst teams, stronger interpersonal connections and deeper alignment with the organisation's culture and purpose.

DRIVING SOCIAL IMPACT
With a commitment to social responsibility

CSR has been a long-standing commitment of the ICICI group and forms an integral part of the CSR activities undertaken by the AMC. The AMC aims to pro-actively support meaningful socio-economic development in India and enable a larger number of people to participate in and benefit from India's economic progress either directly or through implementing agency.

ICICI Foundation for Inclusive Growth (ICICI Foundation) was established in 2008 with a view to significantly expand the ICICI Group's activities in the area of CSR. Over the last few years ICICI Foundation has developed experience in undertaking social development projects in areas like healthcare, environment and ecology, rural development, skilling, financial literacy, sports, etc.

SUMMARY OF IMPACT ASSESSMENT STUDIES CONDUCTED THROUGH EXTERNAL AGENCIES

NAMTECH School of Social Impact

The NAMTECH International Professional Technician Certificate Programme (iPTCP), supported by ICICI Prudential Asset Management Company Limited (the AMC) and monitored by ICICI Foundation for Inclusive Growth, was implemented by NAMTECH to enhance the employability of Industrial Training Institute (ITI) students by equipping them with industry-relevant technical competencies. The programme was implemented across selected ITIs in Mehsana and Patan districts of Gujarat through a hub-and-spoke model, enabling access to advanced training infrastructure and industry-aligned learning.

The intervention focused on bridging the gap between conventional vocational education and evolving industrial requirements by integrating hands-on technical learning with digital literacy, communication skills, and workplace readiness. The project covered a total of 725 beneficiaries across key trades including Industrial Automation, Automotive Technology (EV), and Advanced Welding across ITI Mehsana, ITI Vadnagar, and ITI Kheralu.

The assessment findings reflected improvement in technical competencies, confidence, practical exposure, and employability among beneficiaries, while also strengthening awareness regarding career opportunities within Industry 4.0 sectors, with 98% of beneficiaries reporting satisfaction with the overall programme experience.

Prabal Super 50 Programme

The ICICI Prudential Asset management Company Ltd. through ICICI Foundation for Inclusive Growth, supported the Prabal Super 50 Programme implemented in collaboration with the Indian Army and Centre for Social Responsibility and Leadership (CSRL), aimed at providing free residential coaching for JEE preparation to children of Army personnel. The program offered academic coaching, mentoring support, study materials, mock tests, computer laboratory facilities, career guidance, and accommodation and boarding support to the beneficiaries. The programme supported 39 students, out of which 20 students qualified JEE Mains and 2 students qualified JEE Advanced. The impact assessment findings indicated improvement in students' conceptual understanding, confidence levels, access to affordable coaching support, and reduced financial burden on families through the residential coaching model.

Management Discussion & Analysis

ECONOMIC OVERVIEW

Global Economy

The global economy showed stability in 2025 by successfully managing changing trade policies and different regional outcomes. Technology investments helped balance the effects of new tariffs and shifting policy directions. Global inflation reached a steady 4.1% as several countries reported figures that were lower than initial market expectations. Household consumption grew steadily worldwide in 2025, fuelled by technology investments and wage gains in key regions. In the United States and emerging Asia, spending on goods and services picked up as financial conditions eased, helping counter tariff impacts.

The geopolitical environment continues to remain uncertain, with heightened tensions in West Asia emerging as a key source of disruption to global trade, energy flows, and supply chains. While the Russia-Ukraine conflict continues to have residual effects on crude oil supply/ price, commodity markets and logistics, the current focus of global risk has increasingly shifted towards West Asia, where escalating instability is contributing to supply-side pressures, inflationary concerns, and broader market volatility. These developments are creating indirect challenges for industries across sectors, particularly through higher input costs, shipment delays, and uncertainty in the availability of critical materials and services.

World GDP growth reached 3.4% in 2025, with varying results across different areas. Advanced economies grew by 1.9% while the United States saw a 2.1% increase from technology spending and financial support. The euro area grew by 1.4% and Japan by 1.2%. Emerging markets performed better with 4.4% growth, where India reached 7.6%, and China saw 5.0% expansion.

Real GDP Growth	2025	2026 (P)	2027 (P)
World Output	3.4%	3.1%	3.2%
Advanced Economies	1.9%	1.8%	1.7%
Emerging Market and Developing Economies	4.4%	3.9%	4.2%

P = Projections

Trade tensions remained a key source of uncertainty during the period, as the legal status of US tariff actions and the future of related bilateral arrangements became less certain following the Supreme Court ruling that struck down the tariffs. This development added to the unpredictability around future tariff rates, trade policy direction, and the durability of recent bilateral understandings. Policy uncertainty remained elevated, even as businesses continued to adjust to the changing trade environment. Financial conditions stayed broadly supportive overall, while artificial intelligence-related investment and wider technology spending continued to provide an important offset to trade-related headwinds.

Global Central Banks' Policy Rates

Major central banks largely maintained the status quo on policy rates during the latter part of FY 2025-26 as inflationary pressures, geopolitical uncertainties, and energy market volatility continued to influence monetary policy decisions across developed and emerging economies.

The US Federal Reserve maintained policy rates in the range of 3.5% to 3.75% during the period under review. While rates remained unchanged, the Federal Reserve's dot plot guidance indicated the possibility of a rate cut during 2026, subject to inflation and economic growth trends. The European Central Bank ("ECB") also kept its benchmark interest rates unchanged at 2.15% in March 2026, continuing its focus on inflation management and macroeconomic stability across the Eurozone.

Similarly, the Bank of England ("BoE") maintained the bank rate at 3.75% in March 2026. The decision reflected concerns arising from geopolitical tensions in West Asia, which contributed to higher global energy and commodity prices, resulting in increased household fuel costs and elevated business operating expenses. In Japan, the Bank of Japan ("BoJ") retained its short-term policy rate at 0.75% in March 2026, keeping borrowing costs at their highest level since September 1995 as the central bank continued to monitor inflation and domestic economic conditions.

Policy interest rate

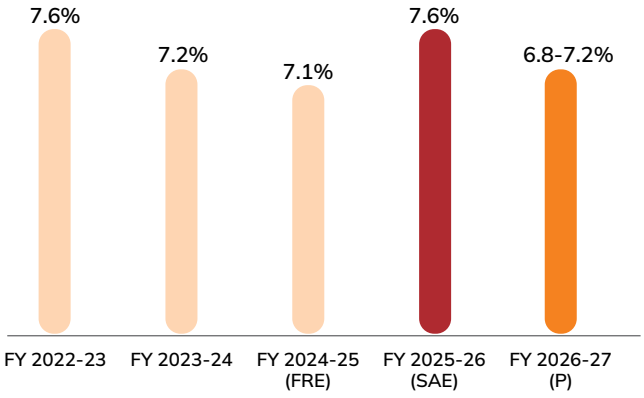

China's People's Bank of China ("PBoC") also maintained its benchmark lending rates at historically low levels for the tenth consecutive month in March 2026. The one-year Loan Prime Rate ("LPR") remained at 3.0%, while the five-year LPR was retained at 3.5% to support economic activity and credit growth.

Indian Economy

In FY 2025-26, the Indian economy demonstrated steady strength against a global backdrop of trade uncertainty and market swings. Second Advance Estimates stated real GDP growth at 7.6% and Gross Value Added at 7.7%, highlighting the sustainability of a growth model led by domestic demand. Strong agricultural output supported rural incomes, while urban consumption improved due to steady employment and lower inflation.

India continues to remain one of the world's fastest-growing major economies, supported by resilient domestic demand, strong investment activity, and ongoing structural reforms. The country is expected to retain its strong growth momentum and may regain a higher global ranking over the medium term as economic expansion continues.

Gross GST collections remained highly buoyant throughout FY 2025-26, reflecting strong domestic consumption. In March 2026, monthly collections rose 8.8% YoY to reach ₹ 2,00,064 crore. For the full financial year, total gross GST revenue hit ₹ 22,27,096 crore, marking a 8.3% increase over the previous year and highlighting improved tax compliance.

The Indian services sector continued its expansionary streak into March 2026, though the pace of growth showed signs of moderate cooling. The HSBC India Services PMI stood at 57.5 for the month. Despite this slight moderation in momentum, the figure remains well above the neutral threshold, indicating sustained resilience in service-led economic activity.

On the international front, the proposed India-US trade deal remains a work in progress. It is currently categorised as an "expected development" under active discussion rather than a concluded agreement. This distinction is critical for stakeholders monitoring the evolution of bilateral trade frameworks and market access.

A key positive during the year was the sharp easing in inflation. Average headline CPI inflation fell to a historic low of 1.7% during the first nine months of FY 2025-26. Lower inflation helped support household purchasing power and consumer confidence, which in turn is important for the capital market and investment activities.

Indian Capital Market

India's capital markets remained broadly resilient in FY 2025-26, supported by continued retail participation, active fundraising activity and a structurally broadening investor base. While market sentiment was affected at times by global uncertainty, valuation resets and intermittent volatility, the underlying market ecosystem continued to deepen, reflecting stronger participation from domestic investors and a wider role for equities in household savings. The broader long-term trend remains constructive, with India's capital markets benefiting from financialisation, digital access and the steady expansion of retail-led market participation.

Market capitalisation remained sensitive to short-term market movements during the year, as benchmark indices corrected and broader equity values came under pressure in phases. Recent reporting indicated that India's market capitalisation fell by over $533 billion YoY by March 2026, reflecting the impact of market volatility and weaker sentiment across select periods. The onset of the West-Asia conflict on 28 February 2026 led to turmoil across global markets in March 2026. Rising oil prices and general uncertainty resulted in panic selling, causing Indian benchmark indices to record their fourth consecutive monthly decline. The BSE Sensex fell below the 72,000-point mark for the first time since February 2024 to settle at 71,948 points, representing an 11.5% decrease from the previous month. Similarly, the Nifty 50 dropped below the 23,000-point mark to close at 22,331 points, reflecting a monthly fall of 11.3%. The medium-term trajectory continues to be supported by earnings growth, domestic liquidity and the increasing depth of listed markets, which together reinforce India's position as one of the most active capital market ecosystems among emerging economies.

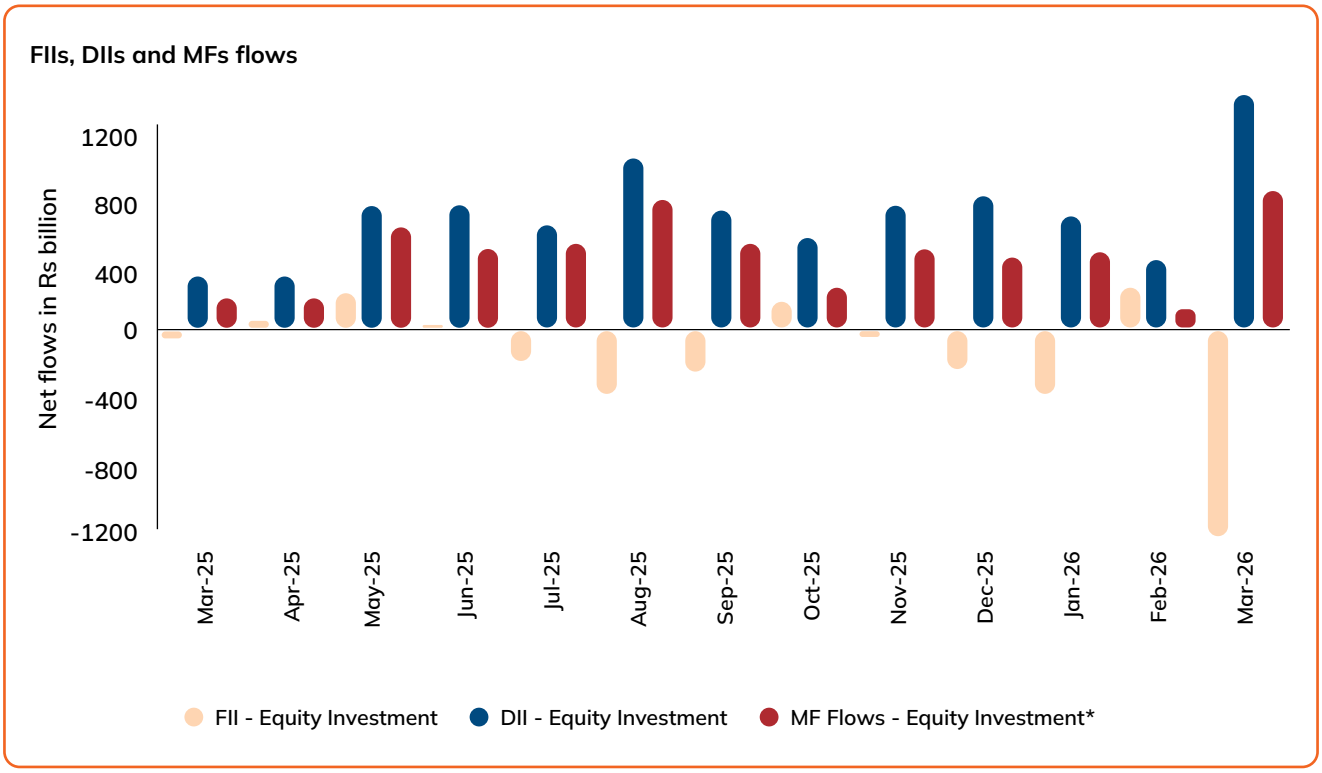

Potential risks include uncertainty regarding US tariffs, pressure on the rupee due to trade imbalances, and changes in international currency trading. However, strong demand within the country helps protect the economy from this global instability.

Key Drivers

The Indian capital market is undergoing a structural transformation, driven by a maturing domestic investor base and a supportive regulatory environment.

- **Increasing participation of domestic players:** The market is witnessing a rise in domestic engagement. This growth is supported by the consistent rise of retail participation through Systematic Investment Plans (SIPs) and a growing preference for financial assets over traditional savings. Furthermore, Domestic Institutional Investors (DIIs) have emerged as a stabilising force, providing a resilient counterbalance to global market volatility and ensuring steady capital flows into the Indian equity and debt markets.

- **Expansion in the number of incorporated companies:** The corporate landscape in India continues to broaden, with a significant increase in the number of new companies being incorporated. This trend is driven by a flourishing startup ecosystem, the success of the Performance Linked Incentive (PLI) schemes, and a steady shift toward formalisation within the economy. New public listings (IPOs) and merger and acquisition (M&A) activities have reached the high levels seen in 2024 due to a strong pipeline of upcoming projects.

- **Regulatory initiatives to enhance penetration and growth:** SEBI and other regulatory authorities have introduced several measures to simplify market access and boost investor confidence. Key initiatives include the implementation of the Securities Markets Code 2025, which consolidates the legal framework for market regulation, and the streamlining of KYC processes through a unified central registry. Additionally, efforts to promote financial literacy at the grassroots level and the integration of advanced digital public infrastructure, such as UPI-based transaction structures for intermediaries, have significantly lowered entry barriers for investors in semi-urban and rural areas.

- **Digital transformation and democratisation of access:** The widespread adoption of user-friendly digital trading platforms and mobile applications has revolutionised investment behaviour across all demographic segments. The integration of electronic KYC and paperless onboarding has facilitated the rapid addition of demat accounts. This digital-first approach has enabled millions of first-time investors from Tier-II and Tier-III cities to participate in wealth creation, further deepening the reach of the Indian capital markets.

Outlook on Capital Market

Indian markets saw steep correction in March 2026 due to geo-political tensions rising from the West Asia conflict. On its impact at domestic macros - fiscal deficit is under control and the demand environment is robust. However, the probability of inflation inching up is high due to spiraling crude prices. The rupee has also depreciated.

However, India's long-term macro environment continues to remain sound. Rupee depreciation boosts service exports, which can cushion India's external balances from supply-side shocks. The estimated growth rate, despite being revised downwards due to the West-Asia conflict, will still be relatively higher than other major economies.

Fixed Income Overview

A combination of domestic and global headwinds pushed yields on India's 10-year G-sec to a 16-month high in March 2026. On the domestic front, fresh all-time lows in the Indian rupee, massive supplies of state debt, and a broad selloff of government bonds amid oil shocks added to the supply-side pressure on bonds. The Reserve Bank of India stepped in to curb volatility through open market purchases of government bonds.

Heavy issuance of state debt in March 2026, marked by state development loans supply approaching the Rs 1 trillion mark during the final week of the fiscal

year, also added to the pressure on central government bonds. Sharp rallies in US Treasury yields amid surging global crude prices also kept domestic bond yields high throughout the month.

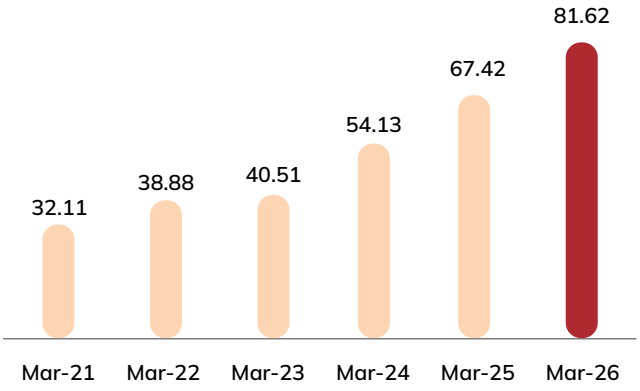

INDUSTRY OVERVIEW

Mutual Fund

The mutual fund (MF) industry in India continues to expand despite significant global headwinds that emerged toward the end of the financial year. The industry continued to record healthy growth during FY 2025-26, supported by strong retail participation, sustained inflows into equity oriented products, rising financial awareness, and increasing adoption of systematic investment avenues.

According to data published by Association of Mutual Funds in India ("AMFI"), the mutual fund industry's Quarterly Average Assets Under Management ("QAAUM") stood at ₹ 81.62 trillion during FY 2025-26, representing YoY growth 21.06%. The growth was primarily supported by net inflows of ₹ 7.46 trillion including SIF in FY26

₹ in trillion

Equity and Equity Oriented schemes remained the largest contributors to industry inflows with net inflows of ₹ 4.59 trillion. Passive investment products, Arbitrage schemes, and Debt schemes also witnessed healthy investor participation, recording net inflows of ₹ 2.07 trillion, ₹ 0.50 trillion, and ₹ 0.19 trillion respectively.

Over the last five years, the industry's QAAUM recorded a Compound Annual Growth Rate ("CAGR") of approximately 20.5%, reaching a record high of ₹ 81.62 trillion by March 2026. During FY 2025-26, the industry also reported year on Yoy growth 21.06%, reflecting sustained expansion across product categories and investor segments.

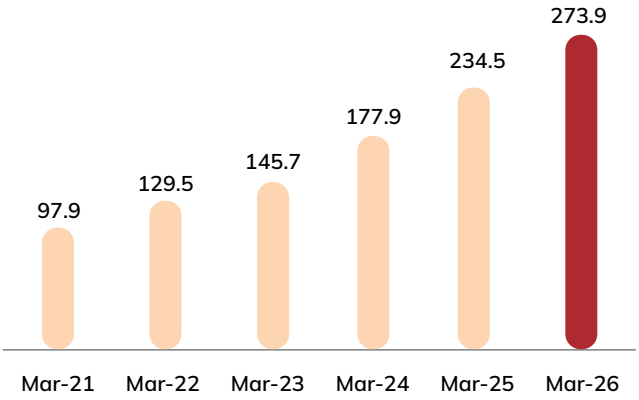

Growth in Investor Participation and Folio Base

The mutual fund industry continued to witness broad based investor participation during the year, indicating increasing investor preference for mutual funds as a long term investment avenue.

As of March 31, 2026, the total number of mutual fund folios increased by 16.8% year on year to 273.9 million compared with 234.5 million as of March 31, 2025.

The increase in folio base reflects wider acceptance of mutual funds among retail investors across urban and semi urban markets. Growing financial literacy, increasing digital adoption, expansion of distribution networks, and continued investor awareness initiatives contributed to deeper penetration of mutual fund products across geographies.

nos in million

Systematic Investment Plans ("SIPs")

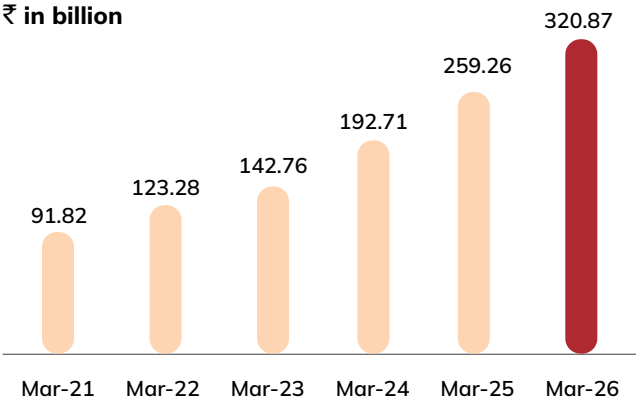

Systematic Investment Plans ("SIPs") continued to remain a major contributor to industry growth during FY 2025-26 due to their accessibility, disciplined investment approach, and suitability for long term wealth creation.

As of March 2026, the number of contributing SIP accounts increased to 97.2 million compared with 81.1 million in March 2025.

Monthly SIP inflows also maintained strong growth momentum during the year. SIP contributions stood at ₹ 320.87 billion in March 2026 compared with ₹ 259.26 billion in March 2025, representing year on year growth of 23.8%.

The continued rise in SIP participation highlights the increasing preference among retail investors for systematic and long term investment planning despite periods of market volatility.

₹ in billion

Growth Across Investor Segments

Participation from individual investors continued to increase steadily during FY 2025-26, reflecting growing confidence in financial markets and long term investment products.

As of March 2026, investments from individual investors stood at ₹ 47.4 trillion, representing year on year growth of 17.6%.

Individual investors accounted for nearly 60% of the mutual fund industry's total Monthly Average Assets Under Management during the year, highlighting the growing contribution of retail investors to the industry's overall asset base.

Opportunities and Challenges

Growth Enablers/Opportunities

- **Financialisation of savings:** Household savings in India are increasingly shifting from physical assets and traditional bank products toward financial instruments such as mutual funds. This trend is being driven by greater awareness, improved product accessibility, and the growing preference for market-linked wealth creation over time.
- **Under penetration of MFs in India:** Despite strong growth in recent years, mutual funds remain under-penetrated in India compared with several developed and emerging markets, indicating significant headroom for expansion. This low penetration, both in terms of assets under management and investor participation, continues to provide a long runway for industry growth.
- **Increasing participation from retail investors:** Retail investor participation has expanded meaningfully, supported by systematic investment plans, digital onboarding, and improved investor awareness. The rising presence of individual investors has broadened the industry's investor base and helped create more stable and diversified inflows into mutual fund schemes.
- **Strong economic growth:** India's mutual fund industry is supported by the country's sustained macroeconomic expansion, which continues to improve income levels, consumption, and savings capacity. A growing economy typically strengthens household surplus and encourages investors to participate more actively in long-term financial products such as mutual funds.
- **Ease of availability due to increased digitalisation:** Digital platforms have made mutual funds easier to discover, compare, invest in, and monitor, reducing barriers for both first-time and existing investors. The growth of mobile apps, online distribution channels, and paperless transactions has improved convenience and expanded access beyond major urban centres.
- **SIF:** The regulatory framework governing Specialised Investment Funds ("SIF") has been prescribed by the Securities and Exchange Board of India ("SEBI") through various circulars covering eligibility criteria, investment strategies, subscription and redemption mechanisms, distribution norms, and disclosure requirements. Under the regulatory framework, SIF investment strategies are broadly classified into:
  - Equity-Oriented Investment Strategies
  - Debt-Oriented Investment Strategies
  - Hybrid Investment Strategies

Challenges/Threats

- **Market volatility:** Mutual fund performance remains exposed to volatility in equity and debt markets, which can affect investor sentiment, short-term returns, and flow stability. Periods of sharp market swings often lead investors to delay new investments or redeem existing holdings, making volatility one of the most persistent industry challenges
- **Low investor awareness towards mutual funds:** Investor awareness remains a structural challenge, where many households continue to prefer traditional savings avenues such as deposits, gold, and real estate. Limited understanding of mutual fund products, risk-return trade-offs, and long-term wealth creation continues to slow penetration and restrict broader retail participation.

Portfolio Management Services

The Portfolio Management Services ("PMS") industry in India continued to witness steady expansion during FY 2025-26, supported by rising financialisation of household savings, increasing participation from high-net-worth investors, and growing demand for customised investment solutions.

The PMS industry has emerged as an important segment within India's broader wealth and asset management landscape, catering primarily to High-Net-Worth Individuals ("HNIs"), institutional investors, family offices, and sophisticated investors seeking personalised portfolio strategies and differentiated investment approaches.

PMS offerings generally include discretionary, non-discretionary, advisory, and co-investment mandates structured around specific investment objectives across asset classes, including equities, fixed income instruments, debt securities, structured products, and other financial instruments.

As of March 2026, Discretionary PMS accounted for approximately 84.8% of total industry AUM, highlighting continued investor preference for professionally managed discretionary investment mandates.

Alternative Investment Fund

The Alternative Investment Fund ("AIF") industry in India continued to witness strong growth during FY 2025-26, supported by increasing investor preference for differentiated investment products, portfolio diversification, and higher risk-adjusted return opportunities.

The AIF segment has emerged as a significant component of India's broader asset management industry, particularly among High-Net-Worth Individuals ("HNIs"), Ultra High Net Worth Individuals ("Ultra HNIs"), family offices, and institutional investors seeking exposure to specialised investment strategies beyond traditional asset classes.

Alternative investment products are increasingly gaining traction across private markets, structured credit, real estate, venture capital, and long-short investment strategies. The industry's growth has also been supported by increasing financialisation of wealth and rising demand for professionally managed alternative investment solutions.

The AIF industry in India operates under the regulatory framework prescribed by the Securities and Exchange Board of India ("SEBI") under the AIF Regulations, 2012. The framework classifies AIFs into three distinct categories based on investment strategy, leverage profile, and economic focus. The categorisation framework enables investors to select products aligned with their investment objectives and risk-return preferences while also ensuring regulatory clarity and transparency across the AIF ecosystem.

Key Drivers for PMS and AIF

The expansion of the PMS and Alternative Investment Fund (AIF) industry is being driven by several structural factors that are changing the way sophisticated capital is allocated in India.

- There is a significant increase in the number of High-Net-Worth Individuals (HNIs), Ultra-HNIs, Family Offices in India who prefer specialised and concentrated investment strategies to manage their growing wealth.
- Rising Affluent Investors are showing a greater appetite for alternative assets as they look beyond traditional mutual funds and listed equities to find differentiated return profiles in private markets and structured strategies.
- The demand for differentiated strategies is growing among investors who seek investment mandates tailored to their specific risk profiles and long-term financial objectives.
- Ongoing regulatory support and reforms from SEBI have improved transparency and reporting standards, which have helped build greater investor trust in the PMS and AIF ecosystem.
- The digital transformation of the financial sector has made onboarding and portfolio tracking more efficient, making it easier for eligible investors to access and monitor their Alternates investments.

Revenue from Operations

Revenue from operations of ICICI Prudential Asset Management Company Limited primarily comprises investment management fees and other fees earned from Mutual Fund operations, Portfolio Management Services ("PMS"), Alternative Investment Funds ("AIF"), and advisory services.

Investment management fees from assets under management are derived from schemes investing across multiple asset classes, including equity and debt securities. Fee realisation differs across product categories, with equity-oriented schemes generally generating higher fee yields compared with debt-oriented schemes. Fee levels also vary based on factors such as scheme composition, asset mix, and fund size.

Accordingly, overall revenue remains dependent on the size and composition of Assets Under Management ("AUM"), with changes in product mix and AUM levels influencing fee income during the year.

Revenue from operations increased from ₹ 46,827.8 million in FY 2024-25 to ₹ 57,646.3 million in FY 2025-26. The increase was primarily driven by growth in investment management fees from (a) Mutual Fund operations, which increased by 22.2% from ₹ 39,635.1 million in FY 2024-25 to ₹ 48,414.4 million in FY 2025-26 and (b) PMS/AIF, which increased by 33.7% from ₹ 6,131.9 million in FY 2024-25 to ₹ 8,195.8 million in FY 2025-26. The growth was mainly supported by an increase in annual average assets under management during the year.

Other Income
Other income primarily comprises income generated from investments. Other income stood at ₹ 2,362.9 million in FY 2025-26 as compared with ₹ 2,968.9 million in FY 2024-25. The decline was primarily attributable to lower Mark-to-market gains on investments during the year.

Finance Costs
Finance costs decreased by 4.2% to ₹ 177.7 million in FY 2025-26 from ₹ 185.5 million in FY 2024-25. The decline was primarily due to lower lease liabilities during the year.

Finance costs mainly arise from the accounting treatment prescribed under Indian Accounting Standard ("Ind AS") 116 relating to leases, wherein future lease payments are discounted to its present value and subsequently unwound over the lease tenure, resulting in finance cost.

Fees and Commission Expenses
Fees and commission expenses primarily comprise commissions paid to distributors relating to PMS and AIF businesses.

These expenses increased from ₹ 3,194.2 million in FY 2024-25 to ₹ 4,192.3 million in FY 2025-26. The increase was mainly attributable to growth in annual average AUM during the year.

Employee Benefits Expense
Employee benefits expense increased by 3.8% to ₹ 6,376.4 million in FY 2025-26 from ₹ 6,142.1 million in FY 2024-25. The increase was primarily on account of annual increments and expansion in employee related costs aligned with business growth, which was partially offset by a decrease in certain component in the employee compensation as it was replaced by Employee Stock Option Scheme (ESOS) and Employee Stock Unit (ESU) which were granted on April 13, 2026. No ESOS/ESU expenses were debited to Statement of Profit & Loss during FY 2025-26. These expenses would be recognised in Statement of Profit and Loss from FY 2026-27 onwards based on fair value at grant date of ESOS/ESU as per Black-Scholes model.

Depreciation and Amortisation Expense
Depreciation and amortisation expense increased from ₹ 853.9 million in FY 2024-25 to ₹ 1,055.1 million in FY 2025-26. The increase was mainly due to additions to property, plant and equipment during the year.

Other Expenses
Other expenses increased by 1.2% from ₹ 4,090.5 million in FY 2024-25 to ₹ 4,139.3 million in FY 2025-26. The increase was primarily on account of information technology expenses, which increased to ₹ 879.5 million in FY 2025-26, from ₹ 681.5 million in FY 2024-25, mainly due to technology enhancement, IT security related cost and digitization initiatives during the year. The increase in FY 2025-26 was partially offset against onetime provision made in FY 2024-25 for goods and service tax liability for the financial years 2018 and 2019.

Profit Before Tax
Supported by growth in revenue from operations and improvement in operating performance, Profit Before Tax ("PBT") increased by 24.7% to ₹ 44,068.4 million in FY 2025-26 from ₹ 35,330.5 million in FY 2024-25.

Tax Expenses
Total tax expenses increased by 25.6% to ₹ 11,085.8 million in FY 2025-26 from ₹ 8,823.9 million in FY 2024-25.

Current tax expense increased to ₹ 10,859.1 million in FY 2025-26 from ₹ 8,704.9 million in FY 2024-25.

Deferred tax expense increased to ₹ 226.7 million in FY 2025-26 from ₹ 119.0 million in FY 2024-25. The deferred tax charge was primarily attributable to movement in fair value gains and losses on investments.

The effective tax rate, including deferred tax, stood at 25.2% in FY 2025-26 compared with 25.0% in FY 2024-25.

Profit for the Year
As a result of the factors outlined above, Profit after tax increased by 24.4% to ₹ 32,982.6 million in FY 2025-26 from ₹ 26,506.6 million in FY 2024-25.

Dividend
The Board of Directors have recommended a final dividend of ₹ 12.40 per equity share of face value ₹ 1 each for FY 2025-26.

The dividend payout ratio for FY 2025-26 stood at 81.0% compared with 81.2% in FY 2024-25.

The interim and final dividend figures for the respective financial years have been derived by considering dividends paid during the year, along with the movement between opening and closing dividend amounts not recognised at the end of the reporting period.

Statement of Assets & Liabilities
The following table presents selected financial information from the Balance Sheet of the Company as of March 31, 2026 and March 31, 2025.

(₹ in million)

Particulars	FY 2025-26	FY 2024-25
Assets		
Financial Assets	42,468.4	36,030.1
Non-Financial Assets	8,035.4	7,806.7
Total Assets	**50,503.8**	**43,836.8**
Liabilities and Equity		
Financial Liabilities	6,325.1	6,370.2

Total Liabilities	**8,792.1**	**8,667.4**
Total Equity	41,711.7	35,169.4
Total Liabilities and Equity	**50,503.8**	**43,836.8**

Financial Assets

The financial assets increased by 17.9% to ₹ 42,468.4 million as of March 31, 2026, from ₹ 36,030.1 million as of March 31, 2025.

The increase was primarily driven by growth in (a) investments which increased to ₹38,565.4 million as of March 31, 2026, from ₹32,851.9 million as of March 31, 2025, mainly due to net investments and mark-to-market gains and (b) cash and cash equivalents, which increased to ₹1,339.7 million as of March 31, 2026, from ₹154.4 million as of March 31, 2025, to support business requirements.

Non-Financial Assets

Total non-financial assets increased by 2.9% to ₹ 8,035.4 million as of March 31, 2026, from ₹ 7,806.7 million as of March 31, 2025. The increase was primarily attributable to growth in Property, Plant and Equipment, which increased to ₹ 5,899.3 million as of March 31, 2026, from ₹ 2,687.6 million as of March 31, 2025, mainly due to additions relating to office premises.

This was partially offset by a decline in Capital work in progress, which reduced from ₹ 2,841.4 million as of March 31, 2025, to ₹ 63.9 million as of March 31, 2026, following the capitalisation of office building during the year.

Financial Liabilities

Total financial liabilities decreased marginally by 0.7% to ₹ 6,325.1 million as of March 31, 2026, from ₹ 6,370.2 million as of March 31, 2025. The decline was primarily due to a reduction in other financial liabilities, which decreased to ₹ 4,343.2 million as of March 31, 2026, from ₹ 4,616.7 million as of March 31, 2025, mainly on account of lower employee-related liabilities as explained above under the head Employee Benefits Expense.

This was partially offset by an increase in total outstanding trade payables, which rose to ₹ 1,981.9 million as of March 31, 2026, from ₹ 1,753.5 million as of March 31, 2025, due to higher business volumes during the year.

Non-Financial Liabilities

Non-financial liabilities increased by 7.4% to ₹ 2,467.0 million as of March 31, 2026, from ₹ 2,297.2 million as of March 31, 2025. The increase was primarily due to higher provisions, which increased to ₹ 338.6 million as of March 31, 2026, from ₹ 241.2 million as of March 31, 2025, mainly on account of increase in employee benefit obligations in accordance with the revised definition of wages as per the New labour Codes effective from November 21, 2025. Accordingly, an incremental liability on account of past service cost in accordance with Ind AS-19 - Employee Benefits amounting of ₹ 61.6 million has been charged to the Statement of Profit and Loss during the year.

Total Equity

Total equity increased during the year primarily due to retained earnings. Retained earnings represent accumulated profits retained in the business after payment of dividends.

Strategic Priorities

- **Maintain focus on investment performance with a risk calibrated approach:** A key strategic imperative for the company is to consistently deliver investment outperformance over medium-to-long term relative to relevant benchmarks and peer groups. Risk management remains an integral component of our investment process.
- **Expand our customer base through distinct initiatives, increase penetration in existing and new markets and strengthen relationships with our distributors:** Distinct initiatives are –
  1) Digital and Direct-to-Consumer Focus
  2) Expanding distribution channels
  3) Leveraging ICICI Bank's distribution network
  4) Domestic Market Expansion
  5) IFSC GIFT City Expansion and;
  6) Establishing presence in DIFC

- **Grow our Alternates business:** Our product strategy includes a focus on scaling our Alternates business, pursuing both organic and inorganic growth. The transfer of investment management rights of certain AIFs from ICICI Venture Funds Management Company Limited has been completed. Accordingly, the Company will be providing investment management services for such AIFs with effect from April 1, 2026. These funds are anticipated to enhance our presence in the Alternates market and complement our existing alternate product offerings such as private credit and real estate funds.
- **Diversify our product portfolio to suit dynamic customer needs:** We are committed to the continuous expansion and diversification of our mutual fund products to align with evolving investor requirements and regulatory developments. We are governed by a regulatory framework relating to the development and launch of new fund offerings. We consistently integrate insights from our investment teams, distributor network, and investors. This enables us to adapt our existing product suite and introduce new schemes that are aligned with investor demand and prevailing market conditions.
- **Leverage our technology and scale digital capabilities to drive customer acquisition and enhance customer experience:** With the adoption of cloud based re-engineering and modernisation of our core technology systems, new websites and mobile application, we aim to deliver digital communications tailored to individual customer interests. This will enable us to optimise customer acquisition, drive ongoing engagement, enhance experience, and strengthen retention. Further, we are increasingly collaborating with digitally enabled distributors and fintech platforms with established retail networks and customer engagement capabilities. These relationships allow us to efficiently reach younger and digitally native customers. We also intend to increase integrations with digital platforms to improve transaction ease and overall customer experience.

RISK MANAGEMENT

The Company has established a comprehensive Risk Management Framework (RMF) aligned with its business objectives and the legal and regulatory requirements applicable to it. The framework is intended to support the systematic identification, assessment and management of risks so that the Company can make informed decisions and address threats while also identifying opportunities. The Company follows industry best practices, including those prescribed by SEBI, and adopts a broad approach to risk management across all activities that contribute to the achievement of its organisational objectives.

The key elements of the Company's risk management process include identifying and evaluating risks, defining risk appetite, reviewing controls, monitoring the risk profile on an ongoing basis, escalating and resolving issues, and providing risk assurance.

The RMF applies across the Company and covers all functions, departments, locations and business units, including investments, sales and distribution, marketing and customer service, portfolio management, operations, compliance, finance, human resources, product development and information technology. It also extends to all schemes managed by AMC.

Three-Layer Defence Model

The Company has implemented a three-line defence model to ensure effective and integrated risk management.

- **First Line of Defence:** This comprises the business and operational units, which are directly responsible for managing risks arising from their activities. They identify, assess, mitigate, and monitor risks, while embedding internal controls into their daily operations and decision-making processes to ensure alignment with organisational objectives and regulatory standards.
- **Second Line of Defence:** This layer includes the Risk Management and Compliance teams, which develop policies and frameworks to support the first line. They provide oversight and guidance, promote a consistent risk environment and facilitate early identification of risks. The Compliance Team with support from the business and operational units ensures adherence to all applicable laws, regulations and internal policies, and has the authority and resources required to operate independently and report directly to the Board.
- **Third Line of Defence:** The internal audit department represents this line and operates independently from management to provide objective assurance on the effectiveness of governance, risk management and internal control processes. The internal audit team is responsible for delivering independent reviews and recommendations that strengthen risk management practices and support organisational resilience.

At the governance level, Board-level Risk Management Committee oversee the risk monitoring framework and review key risk indicators. Internal committees also review various risk areas regularly in line with established policies and frameworks. The principal risks addressed include investment risk, credit risk, liquidity risk, governance risk, operational risk, compliance risk, information technology and cyber risk, reputational and conduct risks, financial risk.

To strengthen risk ownership and accountability, the Company has defined clear roles and responsibilities across key functions, supported by well-defined Key Result Areas. CXOs are responsible for ensuring effective risk management within their respective domains, and

performance against KRAs is reviewed periodically, with the outcomes forming part of the overall performance evaluation.

HUMAN RESOURCES

At ICICI Prudential AMC, our people, values and culture form the foundation of long-term success. We focus on attracting, developing and retaining talent through structured learning initiatives, leadership development programmes and a performance-oriented culture, while continuously strengthening our talent pipeline. Capability building remains a strategic priority, with role-based learning journeys spanning technical, behavioural and leadership competencies, supported by hiring fresh recruits through campus programs, premium institute tie-ups for development programs and digital leraning platforms that encourage a culture of continuous growth.

We nurture an enabling work environment through people-centric practices that strengthen trust, well-being, collaboration and a strong sense of belonging. Employee-friendly policies, recognition programmes and engagement initiatives across regions deepen interpersonal connections and reinforce alignment with the organisation's culture and purpose. As on March 31, 2026, there are 3,585 employees in the company's payroll.

INTERNAL CONTROLS AND THEIR ADEQUACY

The Company maintains internal control systems that correspond to the scale of business operations. These systems provide a high level of assurance that operational activities are efficient, assets are protected, and all actions remain in line with relevant laws and regulations. Responsibility for the oversight of these controls lies with the Audit Committee and the Risk Management Committee. These committees regularly review significant risks and the specific strategies used to manage and reduce those risks.

These internal controls are developed to meet the needs of the business while following regulatory standards, which helps the Company maintain smooth and effective operations. These systems are essential for the protection of assets, the detection and prevention of fraud, and the overall accuracy of financial records. Furthermore, the Company uses advanced technological infrastructure to improve precision and operational efficiency across the organisation.

Internal Audit and Control Framework

The Company has appointed internal auditors to undertake transactional audits, risk-based audits, and process reviews on a periodic basis in accordance with applicable regulatory requirements covering schemes, portfolio management services.

The auditors review scheme accounts and investor folios relating to portfolio management services. In addition, periodic audits are conducted for technology applications and systems used by the AMC. Regulatory audits are also conducted by SEBI-appointed auditors to review compliance with applicable SEBI regulations.

The Audit Committee reviews the observations and reports submitted by the auditors. These reports are subsequently placed before the Board of Directors of the AMC and the Board of ICICI Prudential Trust Limited, the Trustee Company.

The Company continues to place significant emphasis on systems, operational controls, scalability, process efficiency, and risk management. The Company regularly upgrades technology platforms and operational processes to strengthen governance standards and maintain regulatory compliance.

INFORMATION TECHNOLOGY (IT)

The Company continues to strengthen its technology infrastructure and digital capabilities to support operational efficiency, customer servicing, investment management, and regulatory compliance. The Company's technology strategy during FY 2026-27 remained focused on scalability, operational reliability, digital integration, and data-driven decision-making across business functions.

The AMC continued to invest in modern technology platforms aimed at improving investor experience, supporting business growth, strengthening cyber security frameworks, and enhancing operational agility across investment and distribution activities.

Key Technology Initiatives and Developments

- **Digital Platforms and Customer Experience:** During the year, the Company expanded and upgraded several customer-facing digital platforms with increased focus on mobile-based accessibility and simplified transaction journeys.

  The AMC continued to enhance digital onboarding processes and investor servicing capabilities through streamlined workflows and simplified user interfaces. Efforts were directed towards improving ease of navigation, reducing transaction-related complexities, and enabling seamless digital interaction across various customer touchpoints.

  The Company also continued to strengthen end-to-end digital servicing capabilities covering investor onboarding, transaction execution, portfolio-related activities, and customer support functions.

- **Data Management and Artificial Intelligence:** The AMC continued to strengthen its enterprise data management architecture to support analytics, operational monitoring, and business intelligence requirements. During the year, the Company further developed its Data Lakehouse framework using a layered data architecture approach to improve data quality, governance, and analytical capabilities.

The Company also expanded the use of Artificial Intelligence ("AI") based tools and workflow automation capabilities across selected operational and analytical processes. Investments in computing infrastructure supported data modelling, simulation exercises, and predictive analytics aimed at improving responsiveness to changing market conditions and business requirements.

- **Research and Investment Technology Platforms:** The Company upgraded its internal research and investment management platforms during the year to support investment analysis, compliance monitoring, and execution related activities.

  The integrated platform environment enables investment teams to access research inputs, alternative datasets, market information, and compliance monitoring tools through a unified interface. The platform enhancements were aimed at improving operational coordination between research, investment, and compliance functions while supporting faster execution of investment decisions.

- **Infrastructure Modernisation and Cloud Integration:** The AMC continued progress on its technology modernisation initiatives through increased adoption of cloud-based infrastructure and hybrid technology environments.

  Customer-facing applications and selected workloads were migrated to a hybrid cloud framework to improve scalability, operational continuity, and system availability. The Company also continued to strengthen infrastructure reliability through automated monitoring systems, failover mechanisms, and site reliability practices aimed at minimising service disruptions during periods of elevated transaction volumes and market volatility.

  Legacy technology systems continued to undergo phased modernisation with increased adoption of modular architecture and microservices-based development frameworks to support faster deployment cycles and operational flexibility.

- **Customer Relationship Management and Sales Enablement:** The Company further enhanced its Customer Relationship Management ("CRM") platform to support distribution activities, relationship management, and sales productivity.

  Technology-enabled tools, including automated engagement mechanisms and analytics-based lead management capabilities, were deployed to support interaction with Independent Financial Advisors ("IFAs"), institutional clients, and distribution partners. These initiatives were aimed at improving servicing efficiency and strengthening data-based engagement across distribution channels.

- **Cyber Security and Technology Governance:** The AMC continued to strengthen its cyber security and information security framework in response to evolving digital risks and regulatory requirements.

  The Company adopted enhanced access control and identity verification mechanisms based on Zero Trust security principles, under which access requests are subject to continuous authentication and monitoring processes.

  The AMC also continued to strengthen governance frameworks relating to the use of AI and automated systems to support transparency, accountability, auditability, and regulatory compliance in technology-enabled decision-making processes.

The Company continues to view technology investments as an important enabler for operational efficiency, customer engagement, business scalability, and long-term growth.

The AMC remains focused on further strengthening automation capabilities, cloud integration, digital servicing infrastructure, analytical systems, and cybersecurity frameworks. Continued investments in technology modernisation are expected to support operational efficiency, improve customer experience, and maintain service reliability across business operations.

COMPLIANCE

The Company has established a comprehensive compliance framework comprising policies, procedures and controls designed to ensure adherence to applicable regulatory requirements across all its business activities. Key policies governing the conduct of business include, inter alia, the Code of Business Conduct and Ethics, Guidelines for managing conflicts of Interest, applicable guidelines and framework for managing personal trades of the employees and their immediate relatives, Outsourcing Policy, Policy on Anti-Money-Laundering (AML) and Combating Terrorism-Financing (CFT) and Risk and Compliance Culture policy.

The Compliance function acts as a key interface between the Company and various regulatory bodies, including SEBI, IFSCA, DFSA, the RBI, the SEC, depositories, and stock exchanges. The Compliance function monitors compliance across the organization, ensuring adherence to regulatory requirements for mutual funds, portfolio management services, alternative investment funds and advisory services provided by the Company.

Compliance responsibilities are embedded across functions, with each business unit accountable for ensuring adherence to regulatory requirements relevant to its operations. In this regard, the Company has implemented detailed policies covering all areas of business. The Compliance function closely monitors regulatory developments and provides guidance to relevant stakeholders for timely implementation.

The Compliance functions is responsible for facilitating timely regulatory filings, review of product-related

documents and communication materials, and oversight of investor grievance redressal mechanisms. The Compliance function is the interface between the Company and the inspection and audit team/firms.

The Chief Compliance Officer and Company Secretary regularly apprises the Board of Directors of the Company and the Audit Committee on compliance matters, including key regulatory developments and status of compliance. The Compliance function also undertakes periodic training and awareness initiatives to promote a strong culture of compliance across the organisation.

OPERATIONS

The operations of ICICI Prudential Asset Management Company Limited are broadly divided into Mutual Fund Operations ("MFO"), Specialised Investment Funds ("SIF"), Portfolio Management Services Operations ("PMSO"), and Alternative Investment Fund Operations ("ASO").

The MFO team is responsible for servicing investors of the Mutual Fund and customers of SIF products. The key responsibilities of the team include investment administration, banking operations, asset valuation and unit pricing, unit administration, investor service centre operations, coordination with the Registrar and Transfer Agent ("RTA"), investor grievance redressal, regulatory reporting, and management information systems.

MFO activities are broadly classified as follows:

Investment Administration Operations: This function ensures that investment decisions undertaken by the investment team are executed efficiently and that securities acquired or liquidated for respective schemes are settled against the applicable consideration. In line with Securities and Exchange Board of India ("SEBI") regulations, SEBI-registered custodians have been appointed for all schemes. The custodians are responsible for holding securities and facilitating settlement of trades.

Banking Operations: To make Investors able to transfer funds towards subscription and receive the redemption or IDCW payouts, the Company has tied up with various banks. The Company also facilitates various banking services for investors and continues to encourage the adoption of digital transaction platforms as part of its technology-driven initiatives.

Fund Accounting Operations: Accounting activities for most of the schemes are managed by the Company in-house team. Assets of respective schemes are valued on a daily basis in accordance with the valuation policies applicable to each scheme. The operations team manages accounting for unit subscriptions and redemptions, trade execution entries, valuation of securities, accrual of income and expenses, and computation of Net Asset Value ("NAV") for the respective schemes and plans. NAV-related information is disseminated to the RTA and investors on a regular basis.

Unit Administration at Computer Age Management Services ("CAMS"): The Company has appointed Computer Age Management Services Limited as its RTA for managing unit administration activities across schemes. CAMS provides services including transaction acceptance, unit allotment, account statement issuance, dividend and redemption processing including non-financial transactions such as changes in contact and bank details etc..

Investor Service Centre ("ISC") Operations: The AMC continues to focus on delivering consistent investor servicing standards across ISCs and branch offices while maintaining compliance with applicable regulatory requirements and risk management standards. Also, the AMC uses a dedicated investor servicing application, ZOHO, for recording and monitoring investor interactions through various sources including the AMC's contact Centre which is equipped with Interactive Voice Response ("IVR") facilities for addressing investor queries.

- **Email Support:** Investors may contact the AMC through email at 'enquiry@icicipruamc.com' for queries, complaints, and feedback. Service requests and grievances may also be submitted through the "Write to Us" section available on the AMC website. Investors may alternatively contact CAMS, the RTA, at 'enq_p@camsonline.com' for transaction and service assistance.

- **Call Centre Support:** The AMC operates customer support services through toll-free numbers 1800 222 999 and 1800 200 6666.

  Investors may also access servicing support through the "i-Invest iPru" mobile application available on Android and iOS platforms, including WhatsApp-based assistance through the "Contact Us" section.

- **Escalation Mechanism:** The Company has implemented a structured escalation matrix for investors whose concerns remain unresolved at the initial servicing stage. Investors may contact the AMC through 'servicehead@icicipruamc.com' for escalated matters.

  The AMC website also provides disclosures relating to:

  - Investor Charter
  - Complaint redressal details
  - Regulatory escalation channels of SEBI
  - Online Dispute Resolution ("ODR") mechanisms

Management Information Systems ("MIS") and Regulatory Reporting: The RTA acts as the repository for investor transaction-related information. Reports received from the RTA are customised to generate sales-related MIS for various stakeholders, ranging from senior management to sales teams, while also supporting periodic reporting requirements for regulators.

Customer Feedback and Monitoring: The Company undertakes periodic Net Promoter Score ("NPS") surveys and customer satisfaction surveys to assess investor experience across products, services, and customer interaction channels.

Portfolio Management Services Operations ("PMSO"), and Alternative Investment Fund Operations ("ASO")

The Company provides discretionary, non-discretionary and advisory Portfolio Management Services to High Net Worth Individuals ("HNIs"), family offices, domestic corporates, trusts, and domestic and global institutional investors. The Company also acts as an Investment Manager to various Alternative Investment Funds managed by it.

The activities undertaken by PMSO and ASO can be broadly classified as:

Investor Onboarding and Unit Allotment: The Company has a dedicated in-house team which maintains all the client level records for Alternates. In case of PMS, this team performs various activities like KYC verification, funds reconciliation, third party verification, Stock inflow, client activation and STP processing. For this purpose, the Company uses systems like Zoho which helps in managing work flows between Branch and Central office. Further, as part of digital initiatives, the company has enabled digital onboarding for individual PMS and AIF investors. It has also integrated its system with Razor Pay, an account aggregator, for seamless transfer of funds by the investors. The Company has also built an in-house system for auto-reconciliation of funds received from the investors. In case of AIF, the Company has appointed CAMS as its Registrar and Transfer Agent ("RTA") for carrying out various activities of client onboarding, KYC processing, funds reconciliation, third party verification and unit allotment. The operations carried out by RTA are controlled through various MIS reports and periodic inspection by the officials of the Company.

Trade Settlement: This team ensures that daily buy and sell trades executed by the investment team are reconciled in a timely manner. The company has appointed Custodians for PMS and all the Schemes of AIF who are responsible for facilitating settlement of trades and safe keeping of funds and securities belonging to the investors. This team closely works with the Custodians for ensuring proper settlement of all transactions and giving its effect in the books of accounts. The team performs daily reconciliation of funds and securities in various accounts maintained for PMS and AIF . In line with Securities and Exchange Board of India ("SEBI") regulations, SEBI-registered custodians have been appointed for all schemes. The custodians are responsible for holding securities and facilitating settlement of trades. The team carries out client funds and holding reconciliation.

PMS Client level Accounting: PMS Regulations require that the Portfolio Manager shall execute all transactions and maintain all the records at client level. Accordingly, the Company has deployed Wealth Spectrum system which is used for client level order management and where all the transactions like receipt of investment funds or securities, trades executed, corporate actions, redemption payouts, etc are recorded at client level. The team also uses the same system for calculation of management fees and other expenses which are charged to the clients portfolio. These accounts are audited annually by independent chartered accountants and the audited financials are shared with the investors. Apart from this, client level performance and holding reports are shared with the investors at various intervals to keep them updated on their Portfolio investments.

AIF Fund Accounting: The Company acts as Investment Manager to various Schemes managed by it. Every Scheme acts as a different legal entity and accordingly the books of accounts are maintained separately for each AIF Scheme. For this purpose, the Company has appointed independent Fund Accountant and for better control the Company also has an in-house team which maintains accounting records in Wealth Spectrum system also. On a daily basis, the team carries out the valuation of securities as per valuation policy. Further, it carries out accounting for unit subscription, unit redemption, trades executed, accrual of income and expense, corporate action and calculates the tax to be charged to the scheme. After all the accounting and tax entries, the team calculates the Net Asset Value ("NAV") for each class / sub-class of units allotted to the investor and verifies it with the figures calculated by the Fund accountant. The NAV is then updated in the Statement of Account maintained by the RTA, which is shared with the investors at various intervals as mentioned in the Fund documents. For Category II AIFs, the income and expense of the Scheme is also allocated at client level by the team and then communicated to the investor on annual basis.

PMS and AIF Investor Servicing: The PMSO team undertakes activities including post-trade investment support, cash management, treasury operations, settlement functions, maintenance of books of accounts for client portfolios, valuation of portfolio securities, management reporting, and coordination with bankers and custodians.

The AMC has implemented a web-based integrated application system covering front office operations, back office processing, and client reporting for portfolio management, segregated accounts, and advisory services.

The PMSO operates independently from the MFO business with separate systems and operational teams. To service customers of Portfolio Management Services ("PMS") and Alternative Investment Fund ("AIF") products,

apart from local branch level support, the Company operates dedicated contact centre infrastructure with IVR and eBot facilities.

Key Risks:

An Asset Management Company and its investment products face several risks that can affect business performance, results of operations, financial condition and cash flows. ICICI Prudential AMC is also subject to several risks specific to its business and the environment in which it operates, including the following.

- **Adverse market and economic conditions:** The Company earns a large part of its revenue from management fees on mutual fund operations, portfolio management services, alternative investment funds and advisory services to offshore clients. These fees depend on the assets that the Company manages or advises. Therefore, market movements and general economic conditions, especially macroeconomic conditions in India, have a direct impact on the Company's business, results of operations, financial condition and cash flows. The Company also depends on consumer confidence, economic growth, household savings and investor preference for financial savings. If market conditions weaken, investors may withdraw assets, end contracts or reduce new mandates.

- **Underperformance of schemes:** If the Company's investment products underperform their respective benchmarks, investors may redeem more units and invest less in the future. A prolonged fall in assets under management due to redemptions, especially in debt oriented schemes, may affect portfolio diversification, reduce liquidity and raise transaction costs. These factors may weaken scheme performance. The Company may also review management fees for mutual fund operations, PMS, AIF and advisory services, or cap total expenses for certain products or services for specific periods, to support portfolio performance, manage expenses and retain or grow managed assets.

- **Competition risk:** Existing and new market participants offering investment products may reduce the Company's growth, market share or fee levels. If the Company does not respond effectively to competition from other asset management companies or does not offer products that match investor needs, its market share or AUM may decline, which may affect its business. Even so, the Company benefits from a strong brand image, wide distribution network, diversified product offering and quality management.

- **Dependency on brand and reputation of Promoters:** The Company relies on the strength of the brand and reputation of its Promoters, ICICI Bank Limited and Prudential Corporation Holdings Limited, as well as entities that form part of the ICICI group and the Prudential group. Any damage to the Company's reputation, or to the ICICI or Prudential brand names, may affect its ability to maintain or grow its business. Any harm to the reputation of ICICI group entities or Prudential group entities may also affect the Company's business, results of operations, financial condition and cash flows.

- **Compliance and regulatory risk:** SEBI regulates the Company through regulations, guidelines, circulars and notifications that apply from time to time to mutual funds, PMS and AIFs. If the Company fails to comply with any of these requirements, it may face fines, sanctions or court proceedings. Regulatory changes may also increase compliance costs or other expenses, which may affect profitability or place the Company at a competitive disadvantage. Since the Company operates in a highly regulated industry, any breach of applicable regulations may lead to adverse regulatory action.

- **Dependency on services provided by third parties:** The Company depends on services from third-party providers for several activities. If any of these third parties terminate their relationship with the Company or fail to deliver agreed services for any reason, the Company may face disruption in business, results of operations, financial condition and cash flows. The Company may also face legal liability or reputational damage if such service providers do not perform their duties properly.

- **Cyber security risk:** The Company faces online fraud and cyber-attacks that may disrupt services or lead to theft of sensitive internal data or investor information. Its system and operational controls may not always prevent fraud, errors, hacking or system failure. Investor applications and interfaces may also face hacking or compromise by third parties, which may cause losses to investors and to the Company.

Some of these cyber threats include:

i. Phishing and Trojans
ii. Hacking
iii. Data theft
iv. Ransomware
v. Advanced persistent threat

If these systems, or their backup systems and procedures, do not function properly or become disabled, the Company may face financial loss under service contracts, business disruption, liability to investors, regulatory intervention or damage to its reputation.

- **Attrition risk:** The Company depends on the skills and expertise of its employees, especially Key Managerial Personnel and Senior Management. Its success also depends on its ability to retain them. Any sudden or unplanned departure of people in these critical roles may create risk for the business. The Company continues to identify and develop potential talent in these areas to support continuity of operations, but any unexpected departure may still disrupt business.

- **Credit risk:** The Company's schemes face credit risk in relation to debt investments. The credit profile of issuers of debt securities in which the Company's funds invest may weaken because of economic slowdown, changes in the operating environment, operational failure, fraud or other reasons.

Independent Auditor's Report

To the Members of ICICI Prudential Asset Management Company Limited

Report on the Audit of the Financial Statements

OPINION

1. We have audited the accompanying financial statements of **ICICI Prudential Asset Management Company Limited** ('the Company'), which comprise the Balance Sheet as at **31 March 2026,** the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Revenue from management fees (Refer note 1.4 for material accounting policy information on revenue recognition and note 21 for the details of revenue recognized during the year) Revenue from operations majorly comprises of management fees from: • Mutual fund operations that consist of fees from various mutual fund schemes managed by the Company which invest in different categories of securities in the market like equity, debt etc. • Portfolio Management Services (PMS) consist of fees from investors as per individual contracts entered into by the Company. • Alternate Investment Funds (AIF) that consist of fees from various AIF funds managed by the Company as per Private Placement Memorandum (PPM). Management fees is calculated as a percentage of the assets under management ('AUM') managed by the Company as agreed in respective scheme documents, individual customer contracts, etc. There are inherent risks in computation of management fees due to the manual input of contractual key terms such as approved fee rates in the system, computation of applicable AUM which could result in errors.	**Our audit procedures for this area included, but was not limited to the following:** • Obtained and read the accounting policy for revenue recognition and evaluated the appropriateness of revenue recognition policy as per the requirements of Ind AS 115, Revenue from contracts with customers. • Obtained an understanding of the significant processes followed by the management for revenue recognition and identified where there is a higher risk of error due to manual processes, complex contractual terms, and areas of judgement. • Evaluated the design and tested operating effectiveness of key controls over recognition of management fees. • On sample basis, verified that change in management fee rates were approved by authorised personnel. • On sample basis, recomputed the management fee received from Mutual Fund with the relevant scheme document and verified the rate of management fee along with arithmetical accuracy and compared the same with the invoice amount. • On sample basis, recomputed the management fee for PMS and AIF, verified AUM and NAV from the system generated reports and verified the rate of management fee along with arithmetical accuracy and compared the same with the invoice amount.

Key audit matter	How our audit addressed the key audit matter
This involves monitoring by the Company to ensure all financial terms and conditions are captured accurately and applied appropriately in calculation of management fee. Further, any discrepancy in computation of management fees could give rise to a material misstatement in the financial statements. Considering multiple schemes managed by the Company and significance of the amounts involved, significant auditor attention was required to test accuracy of management fee income recognised during the year and accordingly, we have identified this as a key audit matter.	• On a sample basis, checked the receipts of such income in bank statements. • Obtained and read the management fee certification reports, issued by the statutory auditors of mutual fund schemes and reconciled the certified amounts with the accounting records. • Evaluated the adequacy of disclosure relating to management fee income earned by the Company.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

5. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

   Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

   In connection with our audit of the financial statements,

   our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

   When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

6. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

7. In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

8. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

9. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

10. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

    - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is

sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

13. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

14. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.

15. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

16. Further to our comments in Annexure A, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:

    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying financial statements;

    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

    c) The financial statements dealt with by this report are in agreement with the books of account;

    d) In our opinion, the aforesaid financial statements comply with Ind AS specified under section 133 of the Act;

    e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2026 from being appointed as a director in terms of section 164(2) of the Act;

    f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2026 and the operating effectiveness of such controls, refer to our separate report in Annexure B wherein we have expressed an unmodified opinion; and

g) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Company, as detailed in note 37 to the financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2026;

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2026;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2026;

iv. a. The management has represented that, to the best of its knowledge and belief, other than as disclosed in note 40 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;

b. The management has represented that, to the best of its knowledge and belief, other than as disclosed in note 40 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.

v. The interim dividend declared and paid by the Company during the year ended 31 March 2026 and until the date of this audit report is in compliance with section 123 of the Act.

As stated in note 39 to the accompanying financial statements, the Board of Directors of the Company have proposed final dividend for the year ended 31 March 2026 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

vi. Based on our examination which included test checks, the Company, in respect of financial year commencing on or after 1 April 2025, has used an accounting software for maintaining its books of account which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Furthermore, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure A

referred to in paragraph 15 of the Independent Auditor's Report of even date to the members of ICICI Prudential Asset Management Company Limited on the financial statements for the year ended 31 March 2026

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, capital work-in-progress and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a regular programme of physical verification of its property, plant and equipment under which the assets are physically verified in a phased manner over a period of 3 years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. However, no physical verification was carried out by the management of the Company during the year, and we are therefore unable to comment on the discrepancies, if any, which could have arisen on such verification.

(c) The title deeds of all the immovable properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in Note 10 to the financial statements, are held in the name of the Company.

(d) The Company has not revalued its property, plant and equipment (including right-of-use assets) or intangible assets during the year.

e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.

(ii) (a) The Company does not hold any inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) The Company has not been sanctioned working capital limits by banks or financial institutions on the basis of security of current assets at any point of time during the year. Accordingly, reporting under clause 3(ii)(b) of the Order is not applicable to the Company.

(iii) The Company has not made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans to companies, firms, limited liability partnerships during the year. Further, the Company has granted unsecured loans to other parties during the year, in respect of which:

(a) The Company has provided loans to Others during the year as per details given below:

Particulars	Guarantees	Security	Loans	Advances in the nature of loans
Aggregate amount provided/granted during the year (₹ in million):				
• Subsidiaries	-	-	-	-
• Joint Ventures	-	-	-	-
• Associates	-	-	-	-
• Others	-	-	2.7	-
Balance outstanding as at balance sheet date (₹ in million):				
• Subsidiaries	-	-	-	-
• Joint Ventures	-	-	-	-
• Associates	-	-	-	-
• Others	-	-	2.8	-

(b) In our opinion, and according to the information and explanations given to us, the terms and conditions of the grant of all loans are, prima facie, not prejudicial to the interest of the Company.

(c) In respect of loans and advances in the nature of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments/receipts of principal and interest are regular.

(d) There is no amount which is overdue for more than 90 days in respect of loans granted to such other parties.

(e) The Company has granted loan which had fallen due during the year and were repaid on or before the due date. Further, no fresh loans were granted to any party to settle the overdue loans.

(f) The Company has not granted any loan, which are repayable on demand or without specifying any terms or period of repayment.

(iv) In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act in respect of investments made, as applicable. Further, the Company has not entered into any transaction covered under section 185 and section 186 of the Act in respect of loans granted, guarantees and security provided by it.

(v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.

(vi) The Central Government has not specified maintenance of cost records under sub-section (1) of section 148 of the Act, in respect of Company's products/ services / business activities. Accordingly, reporting under clause 3(vi) of the Order is not applicable.

(vii) (a) In our opinion and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, we report that there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

Name of the statute	Nature of dues	Gross Amount (₹ in million)	Amount paid under Protest (₹ in million)	Period to which the amount relates	Forum where dispute is pending	Remarks, if any

The Central Goods and Services Tax Act, 2017 (Maharashtra)	GST	0.1	-	April 2020 to March 2021	Deputy Commissioner of Commercial Taxes	-

(viii) According to the information and explanations given to us, we report that no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.

(ix) According to the information and explanations given to us, we report that the Company does not have any loans or other borrowings from any lender. Accordingly, reporting under clause 3(ix) of the Order is not applicable to the Company.

(x) (a) As stated in Note 19 to the financial statements, the Company has made an Initial Public Offering ('IPO') of its equity shares, which entirely comprised of 'Offer for Sale' by existing shareholders and thus, did not result in any money being raised by the Company. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no fraud on the Company has been noticed or reported during the period covered by our audit.

(b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.

(c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.

(xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.

(xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system which is commensurate with the size and nature of its business as required under the provisions of section 138 of the Act.

(b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.

Independent Auditor's Report on the internal financial controls with reference to the financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the financial statements of **ICICI Prudential Asset Management Company Limited** ('the Company') as at and for the year ended **31 March 2026,** we have audited the internal financial controls with reference to financial statements of the Company as at that date.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR INTERNAL FINANCIAL CONTROLS

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements .

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and

expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2026, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 1 MATERIAL ACCOUNTING POLICIES INFORMATION

This note provides a list of material accounting policies information adopted in the preparation of these Financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

1. Basis of preparation and recent accounting developments

1.1 Compliance with Ind AS

The Financial statements comply in all material aspects with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013, (the 'Act') and other relevant provisions of the Act, as amended from time to time. The Financial statements have been prepared and presented on accrual and going concern basis.

1.2 Presentation of financial statements

The Company presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date and more than 12 months after the reporting date is presented in Note 35.

1.3 Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities are measured at fair value;
- Defined benefit plans - plan assets are measured at fair value; and
- Share-based payments measured at fair value.

2 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Refer to note 33 for segment statements presented.

The power to assess the financial performance and position of the Company and make strategic decisions is vested in the chief executive officer & managing director who has been identified as the chief operating decision maker.

3 Foreign currency translation

(a) Functional and presentation currency

Items included in the Financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Financial statements are presented in Indian rupee (₹), which is Company's functional and presentation currency. Except as otherwise indicated, all amounts presented in Indian rupee have been rounded to the nearest million with one decimal.

(b) Transactions and balances

Initial Recognition:

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions.

i Monetary items:

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

Notes to the Financial Statements

for the year ended March 31, 2026

ii Non-monetary items:

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Non-monetary items that are measured at fair value in a foreign currency are translated into functional currency at the exchange rate when fair value is determined.

All foreign exchange gains and losses are presented in the statement of profit and loss.

4 Revenue recognition

Revenue is recognised when (or as) the Company satisfies a performance obligation by transferring a promised good or service to a customer based on the five step approach as set out in Ind AS 115 (detailed below).

When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

The Company applies the five-step approach for recognition of revenue:

- Identification of contract(s) with customers;
- Identification of the separate performance obligations in the contract;
- Determination of transaction price;
- Allocation of transaction price to the separate performance obligations; and
- Recognition of revenue when (or as) each performance obligation is satisfied.

Management fees

Management fees (net of GST) from mutual fund schemes are recognised on an accrual basis in accordance with the investment management agreement and provision of SEBI (Mutual Fund) Regulations, 1996. The Company receives investment management fees from the mutual fund which is charged as a percent of the Assets Under Management (AUM). Revenue from management fees is recognised as and when services are performed over time as the customer simultaneously receives and consumes the benefits provided by the Company.

Alternative Investment Funds, Portfolio Management Services and Advisory Services

The Company provides alternative investment funds, portfolio management services and advisory services to its clients wherein a separate agreement is entered into with each client. The Company earns management fees which is generally charged as a percentage of the Assets Under Management (AUM) and is recognised on accrual basis. The Company, in certain instances also has a right to charge performance fee to the clients if the portfolio achieves a particular level of performance as mentioned in the agreement with the client, to the extent permissible under applicable regulations. Variable performance fees is not included in the transaction price until it is highly probable that a significant reversal will not occur. Revenue from alternative investment fund(s), portfolio management fees and advisory services is recognised as and when services are performed over time as the customer simultaneously receives and consumes the benefits provided by the Company.

Set up Fees

Set up fees received by the Company for alternative investment fund(s) is amortised over the life of the fund.

5 Income tax

Current taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred taxes

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially

Notes to the Financial Statements

for the year ended March 31, 2026

enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset deferred tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

6 Leases

As a lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the lease commencement date. For leases of real estate for which the company is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- **fixed payments**

  Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the company:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received; and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss.

7 Impairment of non-financial assets

All non financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

8 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash in hand, balances and short term deposits with other banks and other short-term, highly liquid investments with original maturities of three months or less which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

9 Trade receivables

Trade receivables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

10 Investments and other financial assets

i. Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. MTM on Investments held by the Company to settle specific liabilities towards employees are classified at fair value through profit and loss statement with a corresponding impact of MTM to the liability account.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii. Recognition

Purchase and sales of financial assets are recognised on trade date the date on which the Company commits purchase or sale of financial asset.

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss for financial assets recorded at fair value through profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount of the dividend can be measured reliably.

iii. Measurement

At initial recognition, the Company measures a financial asset at its fair value. Further, in case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset are added to the fair value. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments and other financial assets

Subsequent measurement of debt instruments and other financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments and other financial assets:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented as separate line item in the statement of profit and loss.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of

Notes to the Financial Statements

for the year ended March 31, 2026

principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest income from these financial assets is included using the effective interest rate method. Foreign exchange gains(losses) are presented in net gain on fair value changes and impairment expenses are presented as separate line item in statement of Profit and Loss.

- **Fair value through profit or loss (FVTPL):** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within net gain/loss on fair value changes in the period in which it arises.

Equity instruments

The Company measures all equity investments at fair value through profit or loss. Changes in the fair value of financial assets at fair value through profit or loss are recognised in net gain/loss on fair value changes in the statement of profit and loss.

iv. Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 31(b) details how the Company determines whether there has been a significant increase in credit risk. For trade receivables, the Company applies the simplified approach required by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

v. Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset;or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

11 Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

12 Financial liabilities

i. Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

ii. Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

iii. Subsequent measurement:

Financial liabilities are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value

Notes to the Financial Statements

for the year ended March 31, 2026

is recognised in the Statement of Profit and Loss over the period of the liabilities using the effective interest rate method.

iv. Derecognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of the existing liability are substantially modified, such as exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of Profit and Loss.

13 Property, plant and equipment

i. Recognition and measurement

All items of property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Land and buildings are separable assets and are accounted for separately, even when they are acquired together. Land has an unlimited useful life and therefore is not depreciated. Buildings have a limited useful life and therefore are depreciable assets. An increase in the value of the land on which a building stands does not affect the determination of the depreciable amount of the building.

ii. Depreciation methods, estimated useful lives and residual value

Further, as disclosed in table below, based on technical evaluation done by management's expert, the estimated useful life of fixed assets of the Company is different from useful life prescribed in Schedule II of the Companies Act, 2013. Based on the nature of fixed assets used by the Company and past experience of its usage, the Company considers that the useful life for respective assets to be appropriate.

Nature of Fixed Assets	Management Estimate of Useful Life in years	Useful life as per the limits prescribed in Schedule II of the Companies Act, 2013 in Years
Office building	60	60
Furniture and fixtures	6	10
Computers –	3	6
(servers and networks)		
Office equipment	3 -10	5
Vehicles	5	8

Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets, in order to reflect the actual usage of the assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss, unless it is included in the carrying amount of any other asset. The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the changes are accounted for prospectively as a change in accounting estimate.

Leasehold improvements are amortised over the period of the lease on straight line basis or useful life of the asset whichever is lower.

All fixed assets individually costing less than ₹ 5,000 are fully depreciated in the year of purchase/acquisition.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress. Subsequent expenditures relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the statement of

Notes to the Financial Statements

for the year ended March 31, 2026

profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the statement of profit and loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

14 Intangible assets

Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred.

Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Company are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use.
- management intends to complete the software and use or sell it.
- there is an ability to use or sell the software.
- it can be demonstrated how the software will generate probable future economic benefits.
- adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- the expenditure attributable to the software during its development can be reliably measured.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Intangible assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Amortisation methods and periods

The Company amortises intangible assets (computer software) with a finite useful life in 3 years using the straight-line method.

15 Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of reporting period which are unpaid. Trade and other payables are presented as financial liabilities. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

16 Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A present obligation that arises from past events where it is either not probable that

Notes to the Financial Statements

for the year ended March 31, 2026

an outflow of resources will be required to settle or reliable estimate of the amount cannot be made, is termed and disclosed as contingent liability.

A contingent asset is disclosed, where an inflow of economic benefits is probable.

17 Employee benefits

Short-term obligations

Liabilities for salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations (Compensated absences)

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Post employment obligations

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity and
- defined contribution plans such as provident fund and superannuation fund.

Defined benefit plans (Gratuity)

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in (₹) is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

Superannuation

The Company contributes to an approved superannuation fund which is a defined contribution plan for certain employees who have opted for the scheme. The Company's contribution to the Superannuation fund with the Life Insurance Corporation of India is charged to the statement of profit and loss as incurred.

Provident fund

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Long term incentive plan

The Company's certain eligible employees are entitled to Long term incentive benefits as per the Company's policy. The liabilities for long term incentive plan are

Notes to the Financial Statements

for the year ended March 31, 2026

not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Share based payments

The Company's certain eligible employees are entitled for ICICI Bank Limited (Parent Company) share awards. The Company recognises the fair value of the shares and expense for these plan over the vesting period based on the management's estimate of the vesting and forfeiture conditions.

The cost of stock options is recognised in the profit and loss account over the vesting period.

Bonus

The Company recognises a liability and an expense for bonus. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

18 Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax from the proceeds.

19 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

20 Earnings per share

Basic earnings per equity share are computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

21 New Fund Offer expenses

Expenses relating to the New Fund Offer ("NFO") of Mutual Fund schemes are charged to statement of profit and loss of the Company in the year in which the NFO is launched and the expenses are incurred.

22 Commission expenses

Commission is paid to the distributors for AIFs and PMSs as per the terms of agreement entered into with respective distributors. In case of certain Alternative Investment Funds the commission expenses are amortised over the tenure of the product.

23 License fees for using trademark

The Company use, among others, the trademarks "ICICI" and the "I-Man" logo in the ordinary course of business and in corporate name. These trademarks are owned by and registered in the name of ICICI Bank Limited. ICICI Bank Limited has granted the company a limited and non-exclusive license to use these trademarks.

24 Rounding of amounts

All amounts disclosed in the Financial statements and notes have been rounded off to the nearest as per the requirement of Schedule III, unless otherwise stated.

25 Recent Accounting Developments:

Standards issued/amended but not yet effective

Ministry of Corporate affairs("MCA") notifies new standard or amendments to the existing standards. On May 7, 2025 MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2025 and On August 13, 2025 MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Second Amendment Rules, 2025 as below.

IND AS 21- The Effects of Changes in Foreign Exchange rates

The amendments require to specify how an Company should assess whether a currency is exchangeable

Notes to the Financial Statements

for the year ended March 31, 2026

and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows. The amendments are not currently applicable to the Company.

IND AS 1- Presentation of Financial Statements

The amendment are related to Classification of Liabilities as Current or Non-current liabilities with Covenants. The Company does not expect this amendment to have any significant impact in its financial statements.

IND AS 7- Statement of Cash Flows and IND AS 107- Financial Instruments: Disclosures

The amendments introduced disclosure requirements with the objective to enable users of financial statements to assess how supplier finance arrangements affect an entity's liabilities, cashflows and exposure to liquidity risk The Company does not expect this amendment to have any significant impact in its financial statements.

IND AS 12- Income taxes

The amendments include a temporary exception to the recognition and disclosure of deferred taxes arising from the implementation of the Pillar Two model rules; and additional disclosure requirements targeted at a reporting entity's exposure to income taxes in periods in which the Pillar Two Model legislation is enacted or substantively enacted but not yet in effect. The Company does not expect this amendment to have any significant impact in its financial statements.

NOTE 2 USE OF JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of Financial statements in conformity with Ind AS requires that management make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities and disclosures of contingent assets and liabilities as of the date of the Financial Statements and the income and expense for the reporting period. The actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Certain of the Company's accounting policies require critical accounting estimates that involve complex and subjective judgments and the use of assumptions, some of which may be for matters that are inherently uncertain and susceptible to change. Such critical accounting estimates could change from period to period and may have a material impact on the Company's financial condition, changes in financial condition or results of operations. Critical accounting estimates could also involve estimates where management could have reasonably used another estimate in the current accounting period.

The policies that involves critical accounting estimates includes

Note 1 (10)- fair valuation of financial instruments;

Note 1 (13) and Note 1 (14)- estimates of useful lives and residual value of property, plant and equipment and intangible assets and

Note 1 (6)- discount rate for lease liabilities

The policies that involves both critical accounting estimates and judgments includes

Note 1 (5)- deferred tax;

Note 1 (7)- impairment of non-financial assets

Note 1 (16) provisions and contingencies and

Note 1 (17) defined benefit obligations

Management believes that the estimates used in the preparation of the Financial statements are prudent and reasonable and are based upon the management's best knowledge of current events and actions as on the reporting date.

Nature and Purpose of Reserves

Securities Premium:

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act, 2013. The Company has utilised the Share Premium for issuance of bonus equity shares in the current year.

Capital Redemption Reserve:

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve.

Notes to the Financial Statements

for the year ended March 31, 2026

(Currency : Indian Rupee in Million)

General Reserve:

The general reserve is used from time to time to transfer profits from Retained Earnings for appropriation purposes. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to profit or loss. The Company has utilised the general reserve for issuance of bonus equity shares in the current year.

Contingency Reserve:

The contingency reserves is a free reserve created by the company voluntarily in prior years by transferring up to 5% of the profits.

Capital Contribution from parent:

The Capital Contribution from parent is used to recognise the grant date fair value of options issued to employees under ICICI Bank Limited - Employee stock option scheme (equity settled) share based payments scheme.

Retained Earnings:

Retained earnings are the profits that a company has earned to date, less any dividends or other distributions paid to the Shareholders, net of utilisation as permitted under applicable regulations.

b) Defined contribution plans

The Company also has certain defined contribution plans. Contributions are made to provident fund for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the current financial year towards defined contribution plan is ₹ 178.1. (March 31, 2025 ₹ 167.6).

c) Defined benefit plans

Gratuity

The Company has a defined benefit gratuity plan (funded), which requires contributions to be made to a separately administered fund. The gratuity plan is governed by the Payment of Gratuity Act, 1972 ("the Act"). Under the Act/ Policy, employee who has completed five/ten years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement/separation age.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy. Liabilities in respect of the gratuity plan are determined by an actuarial valuation, based upon which the Company makes annual contributions to the plan. The plan is funded with life insurance companies.

Total	**539.9**	**439.8**

(iv) Actuarial assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans and post retirement medical benefits at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

Particulars	As at March 31, 2026	As at March 31, 2025
Discount rate	6.55%	6.50%
Salary escalation rate*	9.00%	8.18%

* takes into account the inflation, seniority, promotions and other relevant factors

(v) Demographic assumptions

Retirement Age:

The employees of the Company are assumed to retire at the age of 58 years.

Mortality:

For March 31, 2026 Published rates under the Indian Assured Lives Mortality (2012-14) Ult table.

(vi) Sensitivity

As at March 31, 2026	Change in assumption	Impact on defined benefit obligation	
		Increase	Decrease
Discount rate	50bps	(10.9)	11.2
Salary escalation rate	50bps	10.8	(10.6)

As at March 31, 2025	Change in assumption	Impact on defined benefit obligation	
		Increase	Decrease
Discount rate	50bps	(8.2)	8.5
Salary escalation rate	50bps	8.3	(8.2)

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(vii) Maturity

The defined benefit obligations shall mature after year end as follows:

Particulars	As at March 31, 2026	As at March 31, 2025
1st following year	223.1	178.2
2nd following year	198.3	117.7
3rd following year	113.1	125.9
4th following year	90.4	64.0
5th following year	70.7	49.8
Sum of year 6 and above	209.1	152.5

The weighted average duration of the defined benefit obligation in current financial year is 3.07 years (March 31, 2025 - 3.03 years)

(viii) Risk Exposure

Asset Volatility – The plan liabilities are calculated using a discount rate set with reference to bond yields, if plan assets underperform this yield, this will create a deficit. Most of the plan asset investments is in schemes of Insurance companies where underlying investment is in debt and equity securities. These are subject to interest rate risk and market price risk. The Company has risk management strategy wherein the aggregate amount of risk exposure is reviewed by the Management.

Changes in bond yield. – A decrease in bond yield will increase plan liabilities, although this will be partially offset by increase in the value of plans' debt holding.

(ix) Risks associated with Defined Benefit Plan:

Interest Rate Risk

A fall in the discount rate which is linked to the G.Sec. rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Notes to the Financial Statements

for the year ended March 31, 2026

(Currency : Indian Rupee in Million)

Salary Risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit.

Asset Liability Matching (ALM) Risk

The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines with relevant Income Tax Rules, this generally reduces ALM risk.

Mortality Risk

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk

Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very low as insurance companies have to follow stringent regulatory guidelines which mitigate risk.

*Represents schemes wherein NAV is available. However, the underlying investments are valued considering inputs as described in Ind AS 109 for Level 2 hierarchy.

i) There are no transfers between levels 1, 2 and 3 during the year.

ii) The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

The Company uses the following hierarchy for determining and disclosing the fair value of financial assets by valuation technique:

The fair value of financial instruments are classified into three categories i.e. Level 1, 2 or 3 depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements).

The hierarchies used are as follows:

Level 1: Hierarchy includes financial instruments measured using quoted prices. This includes investment in listed equity instruments and mutual fund units. The investment in all the open ended mutual funds and listed equity securities are valued at closing Net Asset Value (NAV)/ Market Price, which represents the repurchase price at which the issuer will redeem the units from investors.These instruments are included in Level 1.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. All close -ended mutual funds and debt securities which are thinly traded in the active market and Alternative Investment Funds (other than investing in securities pertaining to real estate sector) are included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The instruments are valued based on quoted prices for the similar instruments but for which significant observable adjustments are required to reflect the difference between the instruments. The investments in Alternative Investment Fund (investing in securities pertaining to real estate sector) and unlisted equity instruments are classified in level 3.

c) Valuation technique used to determine fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

Mutual Fund units : Net Asset Value (NAV)/ Quoted price

Alternative Investment Funds : Net asset value (NAV)

Debt Securities : Discounted cashflow based on the present value of expected future economic benefits/quoted price

Equity Instruments : Break-up value, if the latest balance sheet is available

f) Valuation Process

Valuation of Alternative Investment fund units is done by an independent third party valuation firm during the year and extrapolated at the reporting date.

The main level 3 inputs for Alternative Investment fund units used by the valuer are derived and evaluated as follows:

(i) As underlying investments by Funds are primarily in debt instruments, for the purpose of valuation, the primary approach considered is principal outstanding plus interest accrued less interest received as on valuation date which is discounted at the interest rate prevailing in the market. However, for underlying investee companies which are stressed cases due to delay in their interest and principal repayments, valuation is subject to discounted cash flow approach whereby expected repayment has been discounted at appropriate discount risk adjusted rate.

(ii) Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the real estate sector. The discount rates also consider risk premium adjusted specific to the counterparties.

(iii) Current year valuation of these investments are management estimates based on valuation methodology followed by independent valuation firm for previous years.

g) Fair value of financial assets and liabilities measured at amortised cost

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts are a reasonable approximation of their fair value. Such instruments include, cash and bank balances, trade and other receivables, trade and other payables, short term loans and bank deposits without a specific maturity. Such amounts have been classified as Level 3 on the basis that no adjustments have been made to the balances in the balance sheet.

Further the Company considers the fair values of financial assets and financial liabilities measured at amortised cost approximates their carrying value, where fair values are calculated by discounting the future cash flows using rate adjusted for the counterparties credit risk.

31 FINANCIAL RISK MANAGEMENT

Introduction

Risk management is an integral part of the business practices of the Company. The framework of risk management concentrates on formalising a system to deal with the most relevant risks, building on existing management practices, knowledge and structures.The Company's senior management has the overall responsibility for the establishment and oversight of the Company's risk management framework. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The financial instruments held by the Company expose it to a variety of financial risks: market risk, credit risk and liquidity risk. In addition, the Company is indirectly exposed to market risk through management fee income which is determined by the assets under management. The Company uses different methods such as sensitivity analysis to measure different types of risk to which it is exposed.

a) Market risk

Market risk is the risk that the changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising returns.

i) Foreign exchange risk

The Company is exposed to foreign exchange risk primarily through balances arising in the normal course of business that are denominated in a currency other than the Company's functional currency. The management has assessed that the foreign exchange risk does not represent a significant risk to the Company.

Notes to the Financial Statements

for the year ended March 31, 2026

(Currency : Indian Rupee in Million)

ii) Interest rate risk

The company's Debt investments are primarily in fixed rate interest instruments. Accordingly, the exposure to interest rate risk is also insignificant.

iii) Price Risk

Price risk is the risk that the value of the financial instrument will fluctuate as a result of changes in market prices and related market variables including interest rate for investments in debt oriented mutual funds and debt securities, whether caused by factors specific to an individual investment, its issuer or the market. The Company's exposure to price risk arises from investments in equity securities, debt securities, units of mutual funds, Real Estate Investment Trust (REIT) and alternative investment funds which are classified as financial assets at Fair Value Through Profit or Loss and is as follows:

Particulars	March 31, 2026	March 31, 2025
Exposure to Price Risk	38,565.4	32,851.9

To manage its price risk from investments in equity securities, debt securities, units of mutual funds, Real Estate Investment Trust (REIT) and alternative investment funds, the Company diversifies its portfolio.

Sensitivity Analysis

The table below sets out the pre tax effect on profit or loss and equity due to reasonable possible weakening/ strengthening in prices by 5%:

Particulars	Effect On Profit and Loss and Equity	
	March 31, 2026	March 31, 2025
5% increase in prices	1,928.3	1,642.6
5% decrease in prices	(1,928.3)	(1,642.6)

b) Credit Risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from its investment transactions.

Credit risk is monitored on an ongoing basis by the Company in accordance with policies and procedures in place. The Company is exposed to credit risk from investments held in units of the funds it manages.These investments are measured at fair value through profit or loss. The company has no significant concentration of credit risk.

The Company's financial assets subject to the expected credit loss model under Ind AS 109 are cash and cash equivalents, deposits with banks, trade receivables, staff loans, outstanding receivables.

Staff loans and receivables have been considered to enjoy the low credit risk as they meet the following criteria:

i) they have a low risk of default,

ii) the counterparty is considered, in the short term, to have a strong capacity to meet its obligations in the near term, and

iii) the company expects, in the longer term, that adverse changes in economic and business conditions might, but will not necessarily, reduce the ability of the counterparty to fulfil its obligations.

The Company has placed security deposit with lessors for premises taken on lease by the Company as at March 31, 2026 of ₹ 281.3, and March 31, 2025 of ₹ 371.8. The Company does not perceive any significant decline in credit risk profile of the lessors where the amount of security deposit is material and hence expected probability of default is considered as zero.

Cash and cash equivalents, bank deposits are held with only high rated banks/financial institutions, credit risk on them is therefore insignificant.

Notes to the Financial Statements

for the year ended March 31, 2026

(Currency : Indian Rupee in Million)

The Company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date, as summarised below:

Particulars	As at March 31, 2026	As at March 31, 2025
Security Deposits	281.3	371.8
Staff loans	2.8	2.4
Receivables	1,868.2	2,374.9
Cash and cash equivalents	1,339.7	154.4
Fixed deposits with Bank	135.2	125.7

c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Prudent liquidity risk management implies maintaining sufficient cash and liquid investments. The Company believes that current cash and bank balances, bank deposits and liquid investments are sufficient to meet liquidity requirements since the Company has no external borrowings. Accordingly, liquidity risk is perceived to be low. The following table shows the maturity analysis of financial liabilities of the Company based on contractually agreed cash flows as at the balance sheet date:

As at March 31, 2026	Note	Less than 12 months	More than 12 months	Total
Trade and other payable	13	1,981.9	-	1,981.9

a) ICICI Bank Limited - Employee stock option scheme (equity settled):

The selected employee of the Company are eligible for share options under ICICI Bank Limited ("Parent Company" and "Bank") Employee Stock Option Scheme (ESOS). The Company recognises the fair value of the share options and expense for these costs over the vesting period based on the management's estimate of the vesting and forfeiture conditions.

The above share options are treated as an equity settled share based payment transaction. Under the equity settled share based payment, the fair value on the grant date of the options given to employees is recognised as 'employee benefit expenses' with a corresponding increase in equity over the vesting period.

In terms of an Employee Stock Option Scheme (ESOS), of the Parent Bank, share options are granted to eligible employees and Directors of the Bank and its subsidiaries. As per the ESOS, as amended from time to time, the maximum number of options granted to any eligible employees/Directors in a financial year shall not exceed 0.05% of the Parent Bank's issued equity shares at the time of the grant of the options and the aggregate of all such options granted to any eligible employees/Directors shall not exceed 10.0% of the aggregate number of the Parent Bank's issued equity shares on the date(s) of the grant of the options in line with SEBI Regulations.

In April 2016, exercise period was modified by the Parent Bank from 10 years from the date of grant or five years from the date of vesting, whichever is later, to 10 years from the date of vesting of options. In June 2017, the exercise period was further modified by the Parent Bank to not exceed 10 years from the date of vesting of options as may be determined by the Board Governance, Remuneration & Nomination Committee of the Parent Bank to be applicable for future grants. In May 2018, exercise period was further modified by the Parent Bank to not exceed 5 years from the date of vesting of options as may be determined by the Board Governance, Remuneration & Nomination Committee of the Parent Bank to be applicable for future grants.

Options granted after March, 2014 vest in a graded manner over a three-year period with 30%, 30%, and 40% of the grant vesting in each year, commencing from the end of 12 months from the date of grant other than certain options granted in April 2014 which vested to the extent of 50% on April 30, 2017 and the balance vested on April 30, 2018 and options granted in September 2015 which vested to the extent of 50% on April 30, 2018 and the balance 50% vested on April 30, 2019. Options granted in January 2018 vested at the end of four years from the date of grant. Certain options granted in May 2018,vested to the extent of 50% on May 2021 and balance 50% vested on May 2022.
